

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## CITY OF SOUTH PORTLAND.

---

IN COUNCIL.

FEBRUARY 4, 1910.

*Ordered*, That the Auditor and Committee of Finance and Claims be and are hereby instructed to make the Eleventh Annual Report of the Receipts and Expenditures of the City of South Portland, for the financial year ending January 31, A. D. 1910, and that fifteen hundred copies of the same be printed for the use of the city and for distribution; and that there be appended thereto a copy of the Mayor's address and reports of the city officers returned to the City Council at the close of the financial year.

Also that fifteen hundred copies of the report of the School Board be printed separately.

A true copy.

Attest:

WALTER H. DYER,  
*City Clerk.*

## MAYOR'S ADDRESS.

---

*Gentlemen of the Council:*

We meet here this evening to organize a new City Council. Upon us will rest the duties and responsibilities of managing the affairs of the people, who by their action of March first have placed the management of our city in your hands for the next year.

The people look for, expect, and are entitled to, a careful management of its affairs in every detail.

With the commencement of the new year, we find the City Council changed from a Republican to a Democratic one, and no doubt, in the selection of the subordinate positions, there will be some changes.

In this respect, I want to caution you to select the best qualified and most practical men, regardless of party affiliations, for all subordinate positions; for in a great measure the success or failure of our work will depend upon your action in this matter.

I made several recommendations last year which have been carried out. We secured the services of an expert auditor to go over our books and accounts from the time we became a city, commencing December 5, 1898, and ending February 1, 1908, which action has met with the approval of our citizens.

### SEWERS.

The sewers constructed during the past year have been a subject of some considerable comment.

The Cottage Street sewer was one of the most expensive, but owing to the many new houses built on this street and the prospect of many more, the unbearable conditions as they existed, and the pressing demands of our citizens on this street, made it imperative for us to build the sewer.

The extension of the Harriet Street sewer was built to take care of the sewerage from the upland, which terminated in the willows back of the Marine Hardware and Equipment Company, and formed a stench hole of the worst possible

character. This place consisted of several hundred square feet of unhealthy growth of magots and scum, that could not help but spread the germs of typhoid all over our city. The Board of Health spread several barrels of kerosene oil on this place in the early part of the summer, which relieved the condition for a time, or until the sewer was cut through, which empties to low-water mark. I was appealed to several times to have the Board of Health close the sewer and stop the flow and thus oblige the owners to extend to tide water, as this is not a city sewer. This matter was gone over fully and the owners threatened, but they secured counsel and finally told us to proceed against them. This we could have done, but what would have been the result? Our citizens would have been cut out from using the sewer, as they were causing the nuisance, and they would appeal to the city council for relief. We then would be obliged to build a new sewer for the whole distance; consequently we did the only thing we could do, extended it to tide water.

To avoid cases of this kind in the future, we have a new ordinance bearing on just such cases. I refer you to Ordinance No. XX, Sections 2, 3, 4 and 5. As recommended last year, these are printed, and will be bound in our city reports so all of our citizens may have a copy.

The Sawyer Street sewer we were obliged to build, as the old box sewer was completely rotted beyond repair, which necessitated the construction of a new sewer.

The building of these sewers was considered carefully, and by the unanimous vote of the Council it was decided to construct them, not only to relieve the bad existing conditions, but as a good investment for our city.

I want to call your attention to certain rules of the Council which I am sorry to say have not been lived up to. I refer particularly to Section 14. Special committees of the Council shall report within one month unless further time is granted. There have been many things referred to committees during the past year and died with them, at least they have never been reported back to the Council. I hope the committees will act not hurriedly, but promptly in all matters referred to them; exercise all due care, but avoid unnecessary delays.

I recommended last year that no city official be given authority to purchase supplies, no matter how small, with-

out a written order, signed by at least two members of the committee under whose head the supplies are to be purchased, and when possible voted on by the Council. This has proved an excellent idea and I trust you will continue the same policy.

#### STREET DEPARTMENT.

Our street department is handicapped, probably as very few if any cities in the State, in regard to the many miles of streets to be taken care of, Ellsworth, Maine, being an exception.

With the small amount of money appropriated last year, our Street Commissioner has made an excellent showing. I would recommend a much larger appropriation for this department, for if we expect to grow and flourish we must have better streets. This is an important matter and must have your careful consideration.

Ocean Street is taken care of now by the city taking advantage of the State aid. During the past year a larger stretch of good macadam street has been laid than ever before in the history of our city. This is a move in the right direction, and I most certainly recommend the city taking advantage of State aid to the full extent, and as soon as Ocean Street is completed the full length, then go on Cottage or Saco road and continue as before.

There is a move on foot in the Maine Legislature to have the State build a boulevard from the State line in New Hampshire to Bangor, Maine; if this bill goes through, it will be of great benefit to our city as well as the State.

This will come through the Saco road over Vaughan's Bridge to Portland. This street is the most traveled of any in our city and without doubt is the worst one. Out by the Country Club it is very sandy and will require a good deal of attention this year. Nearly all of the automobile tourists that come into our State come over this route. Without doubt we would have had the Glidden Auto. Tourists visit us on their tour, if the committee had not reported this street nearly impassable; consequently they changed their route into New Hampshire.

I recommended last year the closing of the old Bog road, so-called, leading from Highland Avenue to Rigby Park, as it is impassable, and if allowed to remain open the city will be liable to damages. This is still open, in spite of the united efforts of the City Solicitor and myself, and why the

city has not been called upon to pay damages is more than I can conceive. I have ridden over it several times the past year and must say risked neck and limbs, to say nothing of the danger of killing our horse to get through.

We have tried hard to get the County Commissioners to look it over, or at least one of that august body, but failed. They seem to have a grudge against the city of South Portland and refuse to attend to our needs. They are even working against the proposed new Portland Bridge, which we so much need, and the overhead extension across the "gridiron of death" to Brackett Street, which if accomplished will improve the city of South Portland beyond expression. I have had drawn up six petitions in favor of this and in less than twenty-four hours had every one of them filled completely, and in less than one week could get, if called upon to do so, one hundred of them filled with at least one-hundred names each, making ten thousand names in all if necessary. The County Commissioners are working against all this, and seem to be working against us as well as their own interests.

The Mussey road is another street that is causing some trouble and has been brought to the attention of the Grand Jury for the last two terms. This is another hardship for the city, as we have only two residents on this street, all of the travel coming from Scarboro. It will cost a good deal of money to put it in only a fair condition.

There seems to be some little difference in regard to our cement sidewalks. Previous to this year it has been the custom to charge the abutters with one-half of the cost of laying only. Last year it was decided by the committee to levy the tax on one-half of the full cost, including grading, which formerly has been done at the city's expense. This is a matter that must be attended to at once, as we have a good many bills for sidewalk assessments still unpaid. I would recommend that all new cement sidewalks, so far as possible, be confined to our main streets, that the people may have the benefit of the part they pay.

#### BRIDGE DISTRICT.

I thought last year that as the Vaughan's Bridge was nearly completed it would not involve much work on the incoming trustees, but things are not always what they seem, and the failure of the New Jersey Bridge Company and the necessity of taking over the contract by the district

has caused a good deal of extra work by the commission, probably more than any other year.

The bridge is now completed and lacks only the formality of acceptance. This will not be done until we get the acceptance of our proposition, as presented to the New Jersey Bridge Company through its attorney and assignees. The total cost of the bridge completed is approximately \$400,000, of which the city of South Portland pays according to its assessed valuation of about 5 per cent.

I have reported to the Council several times during the past year the progress of the bridge and the troubles encountered during its completion. There have been rumors that even now we have a poor bridge. I want to say I called Professor Burr's attention to this, and he informed me that we have a first-class bridge in every way; well constructed and the equal of any in the country of a similar nature. The engineers have been very particular to have every part of it first-class and according to specifications.

By the construction of this bridge the whole western section of our city is greatly benefited, and particularly as the Portland Street Railroad Company will extend its tracks over it in the spring. This will be a saving of a good deal of time to people living in this section, and I anticipate a building boom in that part of the city on this account.

#### POLICE DEPARTMENT.

We appropriated for this department only \$900 the past year, and had it not been for the severe drought during the summer we would have kept within our limit; as it was, however, we only overdrew the account about fifty dollars. During the year persons arrested and brought before the court, charged with: Assault, 12; Search and seizure, 1; Maintaining gambling place, 1; Larceny, 2; Begging, 8; Malicious mischief, 5; Bicycle riding on sidewalk, 1. This does not include the many arrested and released, or the warrants issued but not returned to court, which did not seem to justify the issuing warrants.

In many cases troubles have been adjusted without making a court record. I believe in not bringing a young man or woman before the court unless it is absolutely necessary, for the black mark or court record against them is liable to mar their whole future life and does them incalculable harm. Consequently we have tempered justice with mercy and overlooked many things on that account.

It is a bad habit some of our citizens have of sympathizing with the rowdy class, and thus hamper the police officers in the discharge of their duty. This practice should be condemned by all of our law-abiding people.

It is my desire to appoint only such officers for police work as will command the respect of every one. It makes no difference to me what his party affiliations may be, as long as he is satisfactory to the people and fearless in the discharge of his duty. I wish you, gentlemen, to make the selection of the best men who will take the position and report to me at an early meeting of the Council.

#### SCHOOL DEPARTMENT.

It is very gratifying to know that we are rich in one department. We had enrolled on the 15th day of September, 1908, 1,602 pupils in the Common Schools. I will refer you to the report of the School Board in regard to the congested condition of our schools in Wards 2 and 3, pages 96 and 97. These two wards alone contain almost one-half of the scholars in our schools throughout the city.

It is not a matter whether we want to build a school-house to relieve the situation as it now exists, it is a case of *must*, and we do not want to make the mistake that has been made before and build too small. To take care of the scholars that are attending now, it is necessary to build not less than an eight-room, and if we intend to look ahead a few years it will be better to construct a twelve-room, building and finish what is actually needed at present. This is an important matter, and I trust that you will give it your careful consideration at an early date.

It is a matter of pride for me to call your attention to the excellent showing of our schools under the able supervision of Mr. Kaler, Superintendent. Our schools have attained an enviable reputation in the State.

It is a matter of record that our High School stands third in rank in the State, and it is handicapped by crowded conditions, as are our Grammar Schools. With an entering class of eighty-five and a graduating class of only twenty, with every seat filled now, what are you going to do with the other sixty-five pupils? The State says: "You shall furnish them with a Free High School." This is a matter that will perplex the public building committee this year. I have the greatest confidence in that committee, and have no doubt they will find a solution to this problem, — a central

grammar school that will accommodate Wards 1, 2, 3, 4 and 5, that must be built, and a new high school that ought to be built.

We have had a large increase in the number of our school children in the last five years; during the last year an increase of 241, and for the last three years, 511. I give you these figures, gentlemen, so you can see the necessity of providing for them, and if we needed a new central grammar school three years ago, as was advocated by the Mayor and the School Board, what is the need now? Consider these matters seriously and carefully, then act according to your best judgment for the best interest of the city.

You will notice by the Treasurer's report we have outstanding :

Note No. 50, issued in 1906,	\$11,000 00
"    " 70, "    " 1908,	10,000 00
"    " 71, "    " 1909,	5,080 46
	_____
Total,	\$26,080 46
	_____
However, we have outstanding in	
Uncollected taxes,	\$15,733 05
Uncollected sewer-sidewalk, cash on hand and other assets of	
17,615 17	
Tax deeds,	10,226 99
	_____
Total assets of	\$43,575 21

It is to the latter item that I want to call your attention, as I believe we are tying up altogether too much money in this direction, and I would recommend that the assessors be more explicit in their boundaries of property that is being sold from year to year, and that the Treasurer use every means possible to realize on them.

#### BROWN TAIL MOTH.

In accordance with Section 4 of a New Draft as enacted by the Legislature of 1909, relating to the protection of trees and shrubs from the introduction and ravages of dangerous insects and diseases, it obliges us to immediately cause to be destroyed the brown tail moths, as provided by said section and act.

I would recommend that a crew of men be employed by the city to commence *at once* on all of the trees and shrubs

and make a thorough canvass of the whole city and destroy all nests found in the trees along our streets and also private property, the cost of the same to be levied, according to the provision of said act, against the owners of the property. We have already made a good start in this respect and destroyed many thousands of nests, but there are many more yet to be destroyed.

#### WARD LINES.

One of the unusual duties performed by the Board the past year is the readjustment of the ward lines. I think the adjustment as made, as soon as the people get used to them, will prove much more satisfactory than the old ones; they are drawn as near as possible to give each ward an equal, or nearly so, number of voters.

Ward 3 has the largest number, but is smallest in area.

Ward 4 has the least in number, but has the finest chance to grow of any ward, consisting as it does of the fine Mussey field which is building up very fast, and within a few years will be equal in number to any ward in the city.

The lines have been drawn regardless of party, and I have no doubt will prove satisfactory.

There have been a number of complaints in regard to the office hours of the Treasurer and Clerk. I will this year insist on having the office open continuously from 9 A. M. to 4 P. M., inclusive.

Also the habit of outsiders coming into the office of the Clerk and Treasurer and interfering with their duties is bad and must be stopped. The city is too large and the duties of both officers all too great to allow of interference, which necessitates evening work by them.

#### CLEAN STREETS.

I mentioned in my address last year the carelessness or thoughtlessness of many of our citizens in regard to waste paper and other refuse in our streets.

It is utterly impossible for the Commissioner of Public Works to patrol our streets and keep them clean. It is the duty of every citizen to take upon himself the responsibility of looking after his and perhaps his neighbor's property, as well as the street in front of same, and keep them neat and tidy instead of being an eyesore to every passer-by. We have a great many summer visitors here each year, and we

can have them every year, or drive them away by the filthy and unhealthy condition of our grounds and streets.

- Let us teach our children at home, and in our schools, to not only be careful themselves, but try and educate the father and mother that so easy a thing as this can be accomplished with but little effort.

During this term of the Legislature a bill was passed providing for a railroad along our water front. Let us hope that this will prove a reality, as it means the development of a lot of valuable property and the introduction of manufacturing industries, and will bring to our city many desirable citizens, who will build homes and thus increase our taxable property.

#### TAX LISTS.

We have published in our new reports a complete list of all the property tax holders, giving name, location, description, personal and total tax paid. By this method we expect to equalize our taxes and increase our valuation more than five hundred thousand dollars this year, as we will have a revaluation and it will help the assessors greatly in their work. There is a great deal of property that is not assessed near its valuation. There has been called to my attention a piece of property that is assessed for only \$150 per acre, and the party has refused \$1,000 per acre for it. This and many others will help swell the valuation the next year.

#### ATTENDANCE.

Some of the members during the past year have been a little careless in their attendance at the meetings. I hope you will all try to attend every meeting called. Remember you are elected by the people to represent them, and if you cannot attend regularly you ought not to accept the office you now hold, as you cannot do justice to them by irregular attendance.

#### FIRE CHIEF.

Under the provisions of a recently-adopted ordinance, it will be your duty to elect a Fire Chief, the selection of which official should receive your most careful and serious consideration, and this mention suggests the propriety at this time of making some observations upon the relations between the City Government and the existing volunteer

hose companies. These companies are wholly composed of our representative men, mostly of the younger generation, many of them being taxpayers and including some of our foremost citizens, organized for the most commendable and patriotic motives, with a record of disinterested service of inestimable value to the city. They deserve every consideration that may be in the power of the city to accord them. But for financial reasons to the contrary, the city unquestionably ought to purchase at a fair price every piece of property owned by these companies and operate its own fire department, for no such city as ours ought to seek to relieve itself of the obligation to maintain adequate fire protection, though favored with so efficient a volunteer force as we are; but it is the unpleasant fact that the city is not to-day in position to provide for the financing of such a purchase, and I believe that all fair-minded citizens will agree with me in recommending that you do not make selection of any one company as an object of purchase until all can be treated alike.

I have been led to believe that it has been too frequently the case (and it has been too frequently if at all) that more men have responded to fire alarms than were needed and that the time of service has been overestimated, with the result that the city has been called upon to pay many dollars for services which have not been or need not have been performed. This is a condition which was never contemplated, and would not of course for a moment be sanctioned by the management of the companies, but one most natural to obtain under the present arrangement.

Now without detracting in any degree from the credit due the companies, it should not be forgotten that the city pays for their work, and I have no doubt that they would be the first to assent to the justness of the proposition that the city should be represented at all fires by an official clothed with authority to secure harmonious action between the different independent companies in attendance, and to protect the city against unnecessary expense, and that and nothing more is the purpose of the fire chief.

To properly and satisfactorily arrange the details of the work will require care and thought on the part of the officials of the city as well as of the companies. You must bestow it, and unless the companies are much more lacking in sound judgment than in patriotism and generosity they will bestow it, and in that case a satisfactory outcome will be attained.

at no greater loss to any one than the exercise of a little patience.

It will be my desire to co-operate with you in the discharge of your duties during the coming year, and share with you in the responsibilities, and work with you in harmony for the best interests of the city as a whole, regardless of personal interest in any one section.

And now, gentlemen of the Council, I place the municipal affairs in your hands, and feel confident you will each one of you manage them satisfactorily to the people who have placed their confidence in you by electing you to your responsible position.

Respectfully,  
FRED G. HAMILTON,  
*Mayor.*

SOUTH PORTLAND, ME., March 8, 1909.

## AUDITOR'S NOTICE.

---

AUDITOR'S OFFICE, CITY OFFICES, }  
CITY OF SOUTH PORTLAND, ME. }

All bills must be presented for payment on or before the first Wednesday of each month to insure payment during that month, and must specify what the article or articles were for, and for what department, and when for labor, where it was performed, with proper dates.

Items charged to different appropriations or departments must be made on separate bills.

The Auditor desires parties, whose claims against the city have been duly allowed, to be prompt in their calls to receive payment, and when bills have been once presented, ascertain if allowed before duplicating the amount on a subsequent bill, as is sometimes done.

### PAY DAYS.

For teachers and janitors, Friday following second Wednesday, and other departments, Saturday following second Wednesday, in each month.

ALTON A. BEAN,  
*City Auditor.*

## Receipts and Expenditures.

FROM FEBRUARY 1, 1909, TO FEBRUARY 1, 1910.

---

*To the Honorable Mayor and Board of Aldermen of the City of South Portland:*

· GENTLEMEN:—I beg to submit herewith my report of receipts and expenditures for the financial year ending January 31, 1910.

### APPROPRIATION BILL, 1909–1910.

## Report of City Electrician.

SOUTH PORTLAND, ME., Feb. 15, 1910.

*To the Honorable Mayor and Board of Aldermen of the City of South Portland:*

I herewith submit my annual report as City Electrician. I have inspected the electrical equipments of twenty-eight new buildings and of sixty old ones, all of which are up to the standard of the underwriters' code.

The new schoolhouse on Broadway has all the latest electrical improvements and the installation has been kept up to the aforesaid standard.

I have been called upon to make repairs to the following schoolhouses: the Grammar School at Willard, the Knightville Grammar School, the Pleasantdale Grammar School.

I find the electrical work increasing. A fire alarm system has been installed in two of the hose companies territories, viz., Nos. 1 and 2, and it has given universal satisfaction. I would recommend that it be extended to cover the territory of the other companies.

The receiver's sale, December 16, 1908, of the Northeastern Telephone Company to the New England Telephone and Telegraph Company caused a forfeiture to the City of South Portland of the property of the Northeastern Telephone Company located in this city as per article of agreement, Section 5, as follows:

"Fifth. A sale, lease or transfer of the property or franchise of this company, whereby competition is destroyed or whereby the rates herein named are increased, shall cause a forfeiture to the city of all poles or conduits then installed in said city."

The conditions as stated above have been such that it now requires the whole time and attention of one man to properly look after the same for the best interests of the city, and I would recommend that the city give the matter the attention which the urgency of the case demands.

Respectfully submitted,  
SOLOMON INGALLS,  
*City Electrician.*

## **Report of Inspector of Buildings.**

---

*To His Honor the Mayor and Board of Aldermen of the City of South Portland:*

**GENTLEMEN:**—I respectfully submit my report for the year 1909–10.

During the past year I have been called upon to inspect fifty-three new buildings and oversee the moving of ten buildings within the city limits.

The number of buildings erected in our city during the year indicates a prosperous condition of affairs. I am pleased to report the action of the Council for the year in giving the building permits due consideration before granting them, showing a tendency for the betterment of the city in the line of building by allowing only such buildings which come up to a certain standard of efficiency and are for the future interests of the city to be erected. This will have a tendency to encourage others to build. The large majority of the buildings which have been erected this year not only are of superior quality and attractive appearance, but tend to improve the valuation of adjoining property.

I have also been called upon to make a special inspection of the so-called Carleton house on Broadway and am pleased to report that the owners have put the building in first-class condition.

I would suggest that the Council make some change in the method of granting building permits, as I have found in several instances during the year that alterations have been made or buildings partially erected before the filing of the building permit. This makes the inspection of such buildings as should be attended to for the best interests of the city almost impossible.

Respectfully submitted,

**JAMES D. HOYT,**

*Inspector of Buildings.*

## Report of Board of Health.

*To the Honorable Mayor and Board of Aldermen of the City of South Portland:*

GENTLEMEN:—We, the Board of Health of your city, have the honor to submit the following report for the year ending February 1, 1910.

One hundred and thirty-six deaths have occurred in the city during the year past.

### CAUSES OF DEATH.

Accident, 1 ; asthma, 3 ; arterio-sclerosis, 3 ; angina pectoris, 1 ; apoplexy, 6 ; acute indigestion, 1 ; bronchitis, 5 ; congestion of lung, 1 ; cancer, 14 ; cerebral embolism, 1 ; cerebral softening, 2 ; consumption, 5 ; cholera infantum, 3 ; convulsions, 3 ; colitis, 2 ; drowning, 3 ; diabetes, 1 ; disease of heart, 15 ; enteritis, 1 ; inanition, 4 ; intestinal obstruction, 1 ; disease of liver, 2 ; marasmus, 3 ; nephritis, 2 ; oedema of lung, 1 ; pneumonia, 10 ; paralysis, 2 ; paralysis agitans, 2 ; peritonitis, 2 ; rheumatism, 1 ; senility, 11 ; stillbirth, 1 ; syphilis, 1 ; suicide, 2 ; senile gangrene, 1 ; sudden death, 1 ; scarlet fever, 1 ; tubercular meningitis, 6 ; uremia, 3 .

### CONTAGIOUS DISEASES.

Contagious diseases have occurred as follows: Scarlet fever, 8 ; typhoid fever, 2 ; diphtheria, 1 . Death from contagious diseases, 1 .

Measles was quite prevalent during March and April, none being reported except during these months.

To what extent whooping cough has occurred in our city we have no record to determine.

Ages at death, under 5, 22 ; over 70, 31 .

Annual death rate per 1,000, 17 .

### NUISANCES.

Fourteen cases of unsanitary conditions have been reported to this department. All have been investigated and cared for except one. This is the cesspool at the foot of Vincent Street, for which some remedy must be found during the year.

Samples of water from three wells have been examined for us by the State Laboratory of Hygiene. Two of these were found badly polluted by sewage and unfit for use.

MILK SUPPLY.

To Mr. Tarling was delegated the special care of the milk furnished to our citizens, and we are pleased to say that while he has been vigilant regarding the well-being of the consumer he has been extremely considerate of both producer and dealer, and when suggestions were necessary to give them in such a manner as to leave no impression of invasion of personal rights.

ARTHUR TARLING,  
DAVID A. KINCAID,  
THOMAS F. DEVINE, } *Board  
of  
Health.*

---

**Plumbing Inspector's Report from May 1, 1909,  
to December 31, 1909.**

---

*To Board of Health, South Portland, Me.:*

During the eight months passed there were ten master plumbers and five journeymen plumbers registered and fifty permits to do plumbing granted.

Your inspector is pleased to report that all plumbing was done in a sanitary and workmanlike manner and the proper quality of material used in all cases, and I am satisfied our citizens wish for more public sewers in our thoroughfares. I also wish to state that I find all the firms of plumbers doing business in our city are registered and are making the necessary applications for permits to do plumbing as required by Rule XXII, General Regulations of the State.

ARTHUR TARLING,  
*Inspector of Plumbing.*

## **Report of City Physician.**

---

*To the Honorable Mayor and Board of Aldermen of the  
City of South Portland:*

**GENTLEMEN:**—The report of City Physician for the fiscal year ending January 31, 1910, is as follows:

During the year there have been fewer calls for out-poor than in previous years. The reason for this is, the overseers have been very painstaking in investigating the calls, some of the people calling for City Physician having been found in circumstances which warranted their paying their own bills. I would suggest to the Board that they select one good man for overseer of poor, regardless of party, and keep him there. It is one of the most important offices in the city, and much money could be saved by this plan. There have been fewer calls to the City Home, due to the good assistance of Mr. Durost and wife. Too much praise cannot be given them for the care and interest they take in the welfare of the inmates. One thing I would suggest to the City Government. They should appoint at least two physicians as consultants to the City Physician, the same without pay, except when called by the Board of Overseers, and then should charge the regular fee, which should not exceed two dollars per visit. There have been no contagious diseases among the poor this year.

Yours,

**L. S. LOMBARD,**  
*City Physician.*

## **Report of Commissioner of Public Works.**

---

*To the Honorable Mayor and Board of Aldermen:*

**GENTLEMEN:**—I herewith submit my report as Commissioner of Public Works for the year ending February 1, 1910.

In making this the first annual report of a Commissioner of Public Works for our city I have gone somewhat into detail in many matters, that each and every citizen may have full and ample knowledge of all that has transpired in the new department of Public Works and may therefore be better able to judge of its benefit, its expense and its duties to the city. While I have doubtless been criticised by some for apparent extravagance in some things, such as steam rollers, granite crosswalks, etc., I wish to say that I realize as fully as any one that this is not a city of rich men and that constant vigilance is required to guard against unnecessary expense and waste of money, and that not one dollar of any appropriation has been spent until after careful thought it seemed advisable to so expend it, and if I have erred in this respect it was through lack of judgment and not through negligence or lack of a proper realization of the value of economy in all work of the department, and I am ready to have the citizens so judge my acts. There is, however, one important factor that the popular clamor for retrenchment does not always take into account, and that is the difference between absolute neglect of duty in order to make a showing as an economist and that other conception of the duty of public office that calls for a proper expenditure of the public funds in order to maintain our standing among other cities and to so keep up the system of repairs that, after the period of retrenchment is over, some one will not have to expend ten times what we have saved to bring the city back to a normal condition. And in all the projects conceived and executed by this department, with the aid and consent of the Council, this one idea of *permanency* has been kept constantly to the front, and it has been our aim to so expend the funds that work once done would not have to be done over again next year and

the next, until all saving in first cost has been swallowed up many times over in reconstruction, and I believe that much has been done in such a way that next year the taxpayer can go out in the street and have one good look at the dollar that was planted there this year. The amount of travel on our streets has increased rapidly in the last few years, and this combined with the new methods of traveling must be considered in road building or road repairing, and here as well as in other cities we must meet the changed conditions as best we can. A road that would answer very well for slow-moving draft horses and light carriages fails utterly to withstand the destructive action of high-powered self-propelled vehicles. With the funds at our disposal it is uphill work to either build or repair a road that will last through one summer, especially as many of the streets are in low, clay land, where it is out of the question to use water in binding the road material; the least amount of water causes the subsoil to soften up and push through the surface coat and the result is that the steam roller is helplessly mired. The only thing to be done in such places is to get through subsoil drainage and heavy Telford bottom, and that means more expense for one mile than the entire appropriation amounts to. If these things are taken into account, perhaps the citizens will be more charitably inclined toward the shortcomings of the street department.

#### STEAM ROLLER.

In purchasing the steam roller we have done only what other cities and towns are doing. There was a time, not many years ago, when cities could dump the streets full of crushed rock and let the traffic consolidate and smooth it, but owners of automobiles and rubber-tired buggies will hardly appreciate that form of road building at the present time, and if we are to have any kind of roads at all to compare with other places of equal or smaller size we must have the tools with which to build them. The roller will be a paying investment, as aside from its usefulness to the city it can always be let some part of the time for \$10 per day, and so far this fall since we have had it we have received nearly enough in rental to pay this year's installment.

#### STREET REPAIRS.

The following streets have received minor repairs, such as graveling, filling low places, holes caused by settlement

of back fill over sewers constructed in 1908, cutting trees and brush at side of road, clearing ditches, removing rocks, etc.: Scamman, Anthoine, Ocean, Lincoln, Elm, Front, Broadway, Grand, Ferry Wharf, Brown, Main, Evans, Marriner, Summer, Fort Road, Nutter, Highland Avenue, Hill, Pickett, B, Jefferson, Stillman, Whitney and Westbrook.

**STREETS RESURFACED.**—School, from Monroe to High; Cole, near Stanwood; Stanwood, near Cole; Kelsey, east and west of Summer.

**STREETS REGRADED WITH ROAD MACHINE.**—Sawyer, from Ocean west; Parrott, from Ocean to top of hill; Westbrook, from Brown to residence of Mr. Dyke; Mussey, from Broadway to Pine; Pine, from Mussey short distance west to open gutter; Day, from Preble whole length; Williams, from Cottage to Middle Road; Atwood, from Main to the schoolhouse; New, from Atwood to top of the hill.

#### MUSSEY ROAD.

This road was in a deplorable condition, due largely to three causes: 1st, Lack of proper drainage; 2d, Distance from any supply of surfacing material; 3d, An overgrowth of trees and bushes. Two attempts within the last two years have been made, without success, to have the Grand Jury take some action to compel the city to make repairs on this road. As the road runs through woods and swampy land for nearly three miles from Crocketts Corner to the Scarborough line, and as there are no houses above Crocketts Corner, the city of South Portland derives very little benefit from it, and in fact it is seldom used by the citizens of this city, so that the attempt to make trouble over it had of necessity to depend largely for support on a very few men on this side of the line, backed by people in Scarborough, who would have no part of the expense to pay. However, the matter having been brought up in the county-road meeting of last spring and somewhat graphically described by a resident of Scarborough, it was deemed advisable to try and better conditions. The first work done was to cut all trees and bushes for the full width of the road; this let the sun and wind get at the road and helped greatly to dry up the mud. The drainage was secured by opening ditches on each side of the road and so grading them that the water was carried both into the valley at the Crocketts Corner end of the road

and also into Tucks Gully, a deep ravine about 2 1-4 miles west of Crocketts Corner. The work of opening up the ditches was very difficult, as it was necessary to use teams and large stump hooks and "grub" every foot of the way on both sides of the road; following the teams came the crew with hand tools and graded the ditches so that the water was kept moving all the time. The road was then well crowned up with the road machine and hand tools and in some of the worst places surfaced with gravel, and soon became as hard and dry as any dirt road can be. The large reserve pond of the Clark Ice Company, which is near the road, keeps the loose, swampy ground full of water all the time, and no road metal being within reasonable hauling distance, it is a hard proposition for the city, but if the King road drag is used now and then to smooth out the ruts and solidify the surface, and if the ditches are kept open and free from bushes, the road will be in fairly good condition for some years.

#### SACO ROAD.

Owing to a persistent demand from automobile owners from all over the country, who use this road in coming to Portland, backed up by many prominent citizens of both this city and Portland, an attempt was made to improve this road, which is mostly loose sand; but as the only material handy was more sand or, what is nearly as bad, loose gravel, the prospect was not encouraging. It was practically impossible to use the road machine to grade the road for most of the distance, as it would slide in the loose sand and make a bad matter worse. The road was surfaced from the B. & M. Bridge to the Scarboro line with gravel from the B. & M. pit, and later in the season was dragged with the King road drag. When the gravel was first put on the road was nearly impassable, but after a few weeks' time and after being dragged the surface became fairly hard and is probably no worse than before the repairs were made.

#### SPRING AND SUMMIT STREETS.

The lines of these streets had never been accurately defined and much of the roadway was given up to grass and bushes. After establishing the lines and setting stone monuments at the corners, the brush was cut and the streets were rebuilt and regraded with the road machine and surfaced with a very good gravel obtained from the cuts on the

hills that were lowered, and new sidewalks were also built of the surplus material and covered with cinders. Side gutters were made and graded to run the surface water into the catch-basins, and all poles were reset to the line of the sidewalk.

#### KINCAID STREET AND HARFORD COURT.

These two streets were graded with the road machine, then covered with gravel and rolled with the steam roller. Sidewalks and gutters were also repaired and on Kincaid Street two new catch-basins were built to take care of the surface water and one new culvert was built on Harford Court.

#### EAST E STREET.

This street was graded with the road machine and the side gutters opened. The street was then covered with crushed rock and rolled with the steam roller.

#### COTTAGE ROAD.

The road from Sawyer to Pillsbury Street was surfaced with crushed rock and gravel, mixed and unscreened except for the dust, and rolled with the steam roller, and so far as could be determined in the fall this method gave promise of fairly good results.

#### SAWYER STREET.

From High to Front Street. The experiment was tried here of placing screened crushed rock, free from gravel and dirt, on one side of the car track, and crushed rock and gravel mixed on the other side; both sides were then thoroughly rolled with the steam roller and allowed to remain until after a rain storm, when the road was again rolled. The side treated with the screened rock became hard and smooth and the other side, while not so hard, appeared to be somewhat of an improvement over the mud. The sidewalk on the western side was graveled. In none of the streets was there any attempt made to prepare the sub-grade or to place a stone bottom, but the streets were simply surfaced and rolled. This is the method in vogue in many cities in other States, and if it proves fairly successful is much cheaper than excavating for a Telford bottom.

**PREBLE STREET.**

It is well known among all who are familiar with road work and road materials that the gravel in the pit at Meeting House Hill is lacking in binding material, consequently is not adapted to road surfacing, as it readily breaks up under the action of the wheels and seldom "packs" so as to present a smooth, hard surface. Here an attempt was made to pack the gravel by the combined use of the roller and a plentiful supply of water. The road was first covered with from four to six inches of gravel and then thoroughly soaked with water until it presented the appearance of one great mud puddle; it was then rolled until all the rocks and finer particles were mixed and ground together into a paste resembling cement mortar and became hard and smooth. Whenever low places appeared under the roller they were brought up to grade with the rest of the work and all again rolled. The ground freezing at this time, the result of this method cannot be determined until another spring.

**BRIDGES.**

The bridges over Mill Creek and Anthoine Creek have been replanked with new four-inch hard pine plank and the little bridge on Taylor Street has been repaired; this bridge will have to be rebuilt before long.

**RETAINING WALL.**

The retaining wall on the southerly side of Anthoine Creek partly fell out and was in an extremely dangerous condition, this due to the action of the cars of the Portland Railroad Company, and that Company should have replaced the wall, but they absolutely refused to do so or to assist in any way, as by the terms of their charter they are not obliged to do so; result, the city had to replace the wall and pay the entire cost thereof. The new wall is of monolithic concrete construction and cost \$700, which, if I am correctly informed, is one-half the cost of the stone wall on the opposite side for the same length. The wall is smooth and substantially built and will last for years. The hand rail is of iron pipe with the posts set in the wall.

**CEMENT SIDEWALKS.**

4,651 linear feet or 2,414 square yards of cement sidewalk have been built in the following streets, viz.: Preble, Broadway, Henley, Oak, Summer, Elm, Ocean, Burnham,

Libby and Brown. The highest contract price was \$1.07 per square yard and the lowest was 88.4 cents. At the beginning much opposition developed in certain quarters over the fact that bids were called for and the work was to be let to the lowest bidder. Strenuous objection was also made to the wording of the specifications, and when the work was started new trouble developed owing to the fact that inspectors were placed on the work to safeguard the interests of the taxpayers. In addition, the Commissioner of Public Works was subjected to considerable abuse and criticism over the method of surface finish, a rough finish being used instead of the older form of smooth trowel finish, some of the abutters going so far as to forbid the continuation of the work. This notion of running to the Mayor with every fancied grievance and of hectoring the Commissioner of Public Works over the telephone seems to be a form of amusement that is not conducive to harmony and only obstructs the work of the department. Touching on the matter of the sidewalk finish, I wish to say to those citizens who have not given the matter special study that the old method of smooth finish is being largely superseded by the safer and more sensible rough finish. In the first place, the smooth finish is much more slippery and dangerous to walk on, is more apt to show check cracks and is also cheaper for the contractor as a little cement will go a longer way, as the action of the steel trowel brings the cement to the surface, while in the rough or broomed surface the full amount of cement must be in the mixture in order to properly roughen the surface, otherwise the action of the float or broom will leave nothing but sand on the top. This may in a measure account for the preference of some contractors for a smooth finish. One of the largest contractors on the work this summer, however, is a firm believer in "rough finish." He agrees with me that the rough surface affords a more secure footing and after being laid for a time, until people have become accustomed to it, is a better-looking walk.

In nearly all cases there are trees alongside of and some distance out from the walks, making it impractical to build gutters next to the walks; so instead of leaving rough, unfinished strips of earth and grass between the gutters and walks, esplanades have been laid out and graded with the material at hand, and while the cost has been very little, the only work required being to "even up" what nature has

provided, a finish has been secured for both street and sidewalk at very little expense. It is hoped this will meet with the approval of the abutters, and that many will follow the example already set by some and co-operate with this department by covering the spaces with dressing and by cutting the grass in front of their lots.

#### GRANITE CROSSWALKS.

472 square yards of granite crosswalks have been laid as follows: Preble and Grand, Preble and Broadway, Preble and Woodbury, Stanford and High, High and Sawyer, High and Dyer, Sawyer and High, Front and Sawyer, Cottage and East E, Cottage and Woodbury, Cottage near Woodbury, Summer and Elm, Summer and Kelsey, Summer and Cole. The cost was \$2.08 per square yard complete. All walks were grouted with cement and sand mixed, 2 to 1.

#### COBBLE GUTTERS.

203 square yards of cobble gutters have been laid, the most of them being adjacent to the new granite crosswalks, and were laid for the purpose of taking care of the water at the street intersections and to provide easy approaches to the crosswalks. The cost was 50 cents per square yard, the city furnishing the cobbles.

#### BOSTON & MAINE RAILROAD BRIDGE AT BROWN STREET.

This work was done jointly by the city and the B. & M. R. R. Co. The railroad company rebuilt the catch-basins, furnished the gravel, delivered in cars, on the job and in addition paid \$150 of the cost. The road under the bridge and for the full width of the railroad right of way was excavated to a depth of from 14 to 16 inches below the finished grade and a new sub-grade formed of good clean gravel, and on this were laid granite paving blocks, which were grouted with cement grout mixed 2 to 1. Outside the limits of the abutments granite curbs were set and grouted. A cement sidewalk was built on the northern side for the length of the right of way. The cost of the paving was \$2.08 per square yard and 292.5 yards were used. The cost of the sidewalk was \$1.15 per square yard and 33 1-3 yards were laid. Next year the hills on each side of this bridge should be graded and either macadamized or paved, to prevent the dirt from washing down and covering the new paving.

**NEW SEWERS.**

Two new sewers have been built during the year: One in School Street, 220 feet long, from new house of C. A. Tilton to High Street, 8 inch pipe, one new manhole. The total cost including manhole was \$125. One in Surfside and Pickett Streets, 236 feet long, from new house of F. H. Harford to Pickett Street, thence down Pickett to connect with the sewer built in 1908, 8 inch pipe, two manholes. The sewer cost 40 cents per foot, including pipe, and the manholes cost \$32 each.

**SEWERS RELAID.**

When it became necessary in the spring to connect the new house of G. M. Stanwood, on Cole Street, with the sewer, it was found to be within eighteen inches of the top of the ground and was therefore useless to the city or to the abutters. It was taken up and relaid as far as the manhole at Reynolds Street, a distance of 315 feet, and one new manhole was built at Stanwood Street, and also one new catch-basin at the same place to take care of a large amount of surface water that by the grading up of Cole Street was prevented from following its usual course to Fox Brook.

Complaint was made of the sewer on Saco Road at Cash Corner, cellars being flooded after every storm. Investigation here showed the sewer to be laid with the grade, running up from the outlet, and manholes and catch-basins so mixed up and improperly constructed that it was hard to tell which was which; also two catch-basins were discovered that were buried under a foot or more of earth and rubbish. The pipe was taken up and relaid and a surface intake provided for the brook, draining the low land between Cash and Skillings Streets.

**NEW SEWERS INSPECTED.**

Survey was made and grade given for a new sewer in Mildred Street, built by Matthew Woods, under inspection and approval of this department.

The new sewer on Roosevelt Street was inspected during construction.

**SEWER REPAIRS.**

Cleaning, flushing and minor repairs have been made to the following sewers, viz.: Kelsey, Vincent, Summer, Preble, Latham, Harford Court, Grand, Hill and Summer, Atlantic Avenue.

**SEWER OUTLETS REPAIRED.**—Front, Preble, Stanford, Willard, B, C, D, E and Dyer Streets.

Thirty culverts and driveways have been repaired or replaced.

One new manhole has been built in Kelsey Street and one in Cole Street.

New catch-basins have been built in the following places, viz.: Broadway and Mussey, 1; Cole and Stanwood, 1; Sawyer and High, 2; Summer and Kelsey, 1; Kincaid, 2.

The following catch-basins have been rebuilt: Preble and Grand, 2; Sawyer and High, 1; Summer and Elm, 1; Summer and Kelsey, 1; Summer and Cole, 1.

Catch-basins have been repaired as follows: B. & M. Bridge, Brown Street, 2; Preble and Broadway, 1; Cottage and E, 1.

Surface intakes have been built as follows: Saco Road, 1; High and Dyer, 2.

Manhole grades have been changed in the following places, viz.: Summit and Spring, Summit and Smith and Spring and Grand.

New sewer outlets have been built at B, C and D Streets.

One new box drain has been built at Willard Beach to drain Loveitts Brook and the swamp above high water line.

A new box drain has been built in Atwood Street from New Street to the office of the Fuller Varnish Works, surface intakes were provided and the houses that were draining into the street gutter were connected with the new drain.

A new box drain has been built on the west side of Ocean Street and provided with surface intakes; the trench was made larger than the box and the space was filled with rock and juniper bushes to form a blind drain, and it has not only helped to dry the road, but land that had become worthless from stagnant water this summer raised a fine crop of vegetables. The work was done by Charles G. Dyer, which is a guarantee of its thoroughness.

One new pipe drain has been built on the north side of Brown Street.

A new trap has been placed in the catch-basin at the corner of Willard and Loveitt Streets.

Eighteen sewer connections have been inspected.

Fences have been repaired on Lincoln and Front Streets and at Mill Creek.

**STONE MONUMENTS.**

Thirty-eight stone monuments have been set at the angles and intersection of streets as follows: New school-house lot, 11; Atwood Street, 4; Adams, 4; Surfsite, 4; Harford Court, 6; Spring, Summit, Grand and Broadway, 8; Kelsey and Summer, 1. It is the intention to define in this way the limits of all streets as fast as possible. This means a great saving not only to the city, but to all real estate owners, who have to pay for surveys to locate street lines before the bounds of their land can be determined; it also prevents much useless litigation.

Test holes were made to determine sizes and depths of sewers in Mussey Farm, and a report was made to the Council.

Research, measurements and plans have been made to establish a system of numbering for the houses in Brooklyn Heights and the Mussey Farm. Blanks have been printed and numbers may be obtained by applying to this office.

Grades have been given for sidewalks, track location, etc., whenever called for.

Thirty-four visits in the interest of the city have been made with Aldermen and others.

Twenty-four meetings of the Council or Committees have been attended.

Street lines have been given for the following streets, viz.: Brown, Marriner, Middle, Second, Mussey, Harriet, Fort Road, Pickett, Ocean, Kelsey, Spring, Summit, Grand, Broadway, Cottage Road, Atwood and New, and in all places where cement sidewalks were built.

Reports have been made to the Council on the Sawyer Street sewer and on the sand and gravel pits at South Portland Heights.

Streets have been cleaned up of the rubbish remaining after the bonfires of Washington's Birthday, and ice and snow have been removed from gutters and catch-basins.

**NEW STREETS.**

Plans have been made and descriptions written for the following new streets petitioned for: Surfsite, Adams, Vincent, Harford Court, Mildred and Reynolds.

**SURVEYS.**

The following surveys have been made, viz.: Ocean Street for the State road, Harford Court extension, new schoolhouse lot, Kelsey Street, Brown Street, Sawyer Street sewer report, Spring, Summit, Grand, Broadway, Atwood, New, Adams, Surfsite and Pickett Streets, for sewers in Mildred, School, Surfsite and Cole Streets, for the proposed sewer through the pond of the American Ice Company, for the paving at B. & M. Bridge on Brown Street, for the new cement sidewalks and for box drain at Willard Beach.

**SIDEWALKS.**

New sidewalks have been built on Cottage Road from town line to residence of H. E. Dunn; Williams Street, from Cottage to residence of D. A. Meaher; Highland Avenue, in front of land of William Edwards and Mr. Lombard; Summit, whole length of street; Spring, whole length of street; Broadway, near Spring Street; Ocean, at side of State Road; Stanwood, from Cole to new house of C. M. Cole, and Harford Court.

**SIDEWALKS RESURFACED.** — Preble, from Summit to Beach; Sawyer, from High to Front; School, from Monroe to end of street; B, C and D Streets and a short piece on Randall Street.

The pavement in Knightville has been cleaned twice.

All catch-basins in the city, so far as known, have been cleaned.

**BROWN TAIL MOTHS.**

In the spring men were put at work removing the nests, and all the streets of the city were cleaned and some of the private property. Number of streets cleaned, 55; number of trees cleaned, 3,522; number of nests from city trees, 15,973; number of private grounds cleaned, 23; number of nests removed from private grounds, 4,023. Total number of nests removed, 19,996.

The above is a report of the work last spring and does not include the work now going on.

**BROWN STREET SEWER.**

Considerable time was put in on the survey and plans for the sewer to run through the land of the American Ice Company at Pleasantdale. As considerable misinformation has been given out regarding the cost, etc., of this sewer, it

may be well to call attention to the fact that the estimate submitted to the Council was \$4,373 for the sewer complete. This estimate was for a sewer to extend from the B. & M. crossing at Evans Street to the top of Brown's Hill, and for Lincoln Street from Brown to Church Streets, and included the trunk line through the land of the Ice Company, the outlet through the dam and twenty-three manholes. That this estimate was not too low is proven by the fact that both contractors who figured on the job were under this sum. The total length proposed was 5,520 feet. In spite of the apparent failure of the project, I believe that the time was not wholly lost, as the discussion has awakened the public interest in a matter that will soon have to be taken up in a non-partisan spirit and some method devised for draining that section of the city lying west of Brown and Evans Streets and east of the Western Division tracks of the B. & M. Railroad.

The rapid development of property in that section by real estate men will compel the construction of a sewer system, and while there may be some better way than the one proposed I have not been able to see it, and in this I have the concurrence of an engineer of high standing, who was employed to consult with me on the matter and whose report is on file at this office. In spite of any report that may have been made to the contrary, the fact still remains that closets, drains and vaults *do* drain into the valley east of Brown Street that might be carried, not *through*, but *by* the pond of the Ice Company if the sewer had been constructed. Furthermore, the whole of Cash Corner might, by going around back of Brown's Hill, be drained to tide water if the dam now flooding a large and valuable portion of our water front could by any legal means be pierced at the proper depth. The valley east of Brown Street was intended by nature to drain the eastern portion of Ward 7, and any attempt to go through Lincoln and Main Streets, even if sufficient grade could be secured, would mean deep cuts and prohibitive expense. The only other alternative is a pumping station.

As civilization advances, the spirit of altruism becomes more developed and a newer and broader conception of the duties and responsibilities of the individual to the community begins to make itself manifest, and city governments and voters will share alike the shame of neglected sanitary matters, and putrescible garbage dumps, carelessly-constructed

sewers, gutters reeking with filth and contaminated water supplies will no longer be allowed to go on propagating the germs that jeopardize the entire municipal structure.

#### **WATER FRONT.**

At the request of the Harbor Commissioners a survey has been made of a portion of the water front, so that we now have a map made from recent surveys showing the present outline and development of the shore property from the Portland Bridge to Fort Preble, and it is hoped to add to this work from year to year until an up-to-date map can be had of the entire shore line of our city.

The Board of Assessors have much work that they desire this department to look after and it will be taken up as soon as possible.

#### **STATE ROAD.**

The State road was extended a distance of 525 feet. The construction was macadam and the cost was \$1,420.12. The contractor was T. W. Marshall. The work was inspected by this office and was under the charge of the State Highway Commissioner. My recommendation to the city is to discontinue the State road work and appropriate the same amount of money each year to be expended by the local street department on some specially designated road, and I think we will get more for our money and make more work for teams owned in this city. I was chairman of the street committee that first started this State road work and I thought then that it would be a good thing for the city, but experience with the actual working of the method does not justify that conclusion.

#### **OFFICE.**

At the organization of this department in July there was no room available for our use and the Committee on Public Buildings assisted us in every way and gave us the use of the old jail, in the rear of the city storehouse on Thomas Street. No money has been spent for new furniture or roll top desks, but any old junk that was handy has been called into use, and the building will do very well until such time as quarters can be provided for all the city offices under one roof.

**GENERAL WORK.**

As time has permitted, copies have been made of all plans in the possession of the city, with the idea in view that when all existing plans have been properly arranged a start may be made to obtain plans covering the whole city. It is also the intention to arrange the plans of sewers so that the size, location and grade of any sewer, together with all manholes and catch-basins, may be readily obtained by any citizen. All this means an immense amount of work with the limited funds available. A research of the town and city records is being made as fast as possible and all street records are being collected, and when the work is complete they will be properly arranged and indexed so that the date of acceptance, location and width of all streets may be found without the labor and uncertainty of the present time. During the year thirty-three new plans and sixty old ones have been made and copied.

Tables of cost with all details are being prepared for next year, so that any member of the Board or any taxpayer can see at a glance the condition of any work being done by this department.

Files have been arranged so that information may be given at any time on any matter connected with this office.

As many new streets have been laid out this year it will be necessary for the incoming Board to provide an appropriation for "New Streets," as much work will have to be done to make some of them passable. Otherwise, they being legally accepted streets, the city will be liable for any damage to teams or pedestrians caused by their unsafe condition. Some of our old streets are so badly worn out that any work on them must be more in the nature of "reconstruction" rather than "repairs," and special appropriations should be made in such cases, as it is out of the question in this age of rapidly-moving automobiles and heavy Government teaming to rebuild any street out of the appropriation for maintenance and repair.

In the past it has been the custom for the Board to provide the smallest possible sum for the regular sewer and drain work, a sum always far too small to do half the work demanded by the citizens; then if the catch-basins and sewers are not cleaned and flushed as often as every one thinks they ought to be the street department gets all the blame, and it is an utter impossibility to properly care for all the ramifications of the sewer system of a city covering

the ground that this one does with a small appropriation. Many of the sewers are laid without sufficient grade, or for some other reason will not carry the sewage, and these call for constant expense of flushing and cleaning, and many of them should be taken up and relaid; others have no manholes and every time they get plugged up it means dig all over the street by guess until the pipe is located, and funds should be provided to build manholes in all sewers that are now without them. Many more new catch-basins should be built every year to meet the growth of the city and the changing conditions.

One change in the method of doing the street work it seems to me might be made by the incoming Board that would result in benefit to the city. If the Council would adopt the method of some other cities, and at the beginning of each year decide by vote what streets should receive permanent repairs and appropriate a special sum for each one, it would relieve the Commissioner of Public Works of much pressure from factional interests and insure to the general public a more uniform system of street repairs, and incidentally take from one man the opportunity to favor his section of the city and discriminate against others.

Just one word about the personnel of the street crew, headed by G. B. Jordan, a former street commissioner, and with David Loveitt in charge of the machinery. I believe it is safe to say that we have as good a street crew as any city of its size in the country. All are workers; the element that sometimes composes a large part of city street departments has been eliminated from our pay roll. Robert F. Strout has been regular assistant in the engineering work and Philip Strout was assistant during the busy season and while he was on his vacation from the University of Maine. The carpenter work has been in charge of Freeman Willard, and to the taxpayers that means "nothing wasted." Former Street Commissioner J. F. Chaplin has had charge of the repair work in Ward 7.

In closing I take this opportunity to extend to his honor the Mayor and to the entire Board of Aldermen without exception, and especially to the Committee on Public Works, my sincere thanks for their loyal support during the year. I might go further and include the citizens of the entire city, who as a whole have extended to me their aid in many things, and I trust that the time will come when a man can assume public office without becoming at once an object of

suspicion, and when every act will not be a subject for street-car and grocery-store criticism, but some portion of public confidence may be enjoyed even by a street commissioner.

**H. M. AREY,**  
*Commissioner of Public Works.*

## **Report of the City Solicitor.**

---

*To the Honorable City Council of the City of South Portland:*

In accordance with the provisions of Article X of the City Ordinances, I submit the following report.

There are now pending in the Supreme Court the cases of Virgil C. Wilson and Fred H. Loveitt, *et al.*, Appts., *vs.* City of South Portland, in which the plaintiffs claim damages as part owners in the Wharf Point property. The Loveitt case has remained in abeyance, awaiting the disposition of the Wilson case. The latter has received much consideration and many depositions are now on file preparatory to the hearing. The case has been to the Law Court on exceptions to the ruling of the Honorable Presiding Justice of the Supreme Court, and the contention of the city has been sustained, and authority is given to examine into the title of the appellants if any they have.

During the session of our Supreme Court at the January term, arrangement has been made for a hearing of these cases before the Hon. Albert R. Savage, of Auburn, and the Hon. Henry C. Peabody, of Portland, as referees, to pass on the merits of the appellants' claims and be sole judges of the law and fact, from whose decision there will be no appeal and no exceptions. Thus the Wharf Point case will be finally adjusted. The hearing is to take place during the week commencing May the thirtieth and ending June the fourth, A. D. 1910.

During the time of the presentation of the cases before the referees, depositions already on file will be used and the maps which have been prepared, and witnesses who are able to attend in person will also give their testimony. These cases have received much attention and are the most important matters now pending.

When I assumed the duties of City Solicitor I found the case of Martha C. Coolbroth pending. A trial was had at the April term of the Supreme Court and a verdict was given in favor of the plaintiff and a settlement has been made by order of the City Council. In our humble opinion

the claim was without merit and the cause of the accident was no nuisance.

Some minor and doubtful claims have been made against the city at different times, but have not been pressed.

On the 23d of July, 1909, suit was brought against Edwin Noyes, of South Portland, for expenses occurred on account of Rebecca Noyes. These expenses amounted to the sum of \$247.92, and the same has been secured by attachment and will eventually be collected. Wilbur F. Dresser has been duly appointed guardian of Rebecca Noyes and has a license from the Court to dispose of her interest in some land, so when this is sold the claim of the city will be paid in full.

Nicholas Mospan, who died on the 3d of January, 1909, was indebted to the city for the expenses of his wife, Annie M. Mospan, who had long been in the Insane Hospital at Augusta. A claim against the estate was left with me and I found some real estate on the corner of Pickett and Washington Streets in which the deceased was interested and in which his wife also had an interest. Arrangements are being made to effect some compromise on these claims, and Wilbur F. Dresser has been appointed guardian of the widow and has a license to sell her interest in the property. All we can expect is a percentage of the indebtedness.

The city also had a contested claim against the city of Augusta for the care of Mrs. E. A. Scribner. The indebtedness amounted to \$107.00. This after some delay and correspondence has been paid through the City Solicitor of Augusta.

A claim against the town of Rumford for pauper supplies furnished J. C. Small has been receiving some attention. It is claimed that Mr. Small was not chargeable to Rumford as he had been out of the State during a period of five years without receiving pauper supplies. Investigation showed that during six months of the period in which it was claimed he was away he had been employed in the mills in Lincoln; and for the further reason that the Overseers of the Poor of Rumford had not answered the notices sent by the Overseers of the Poor of South Portland, Rumford was estopped from contesting liability. It finally decided through its attorney, James C. Stevenson, to pay the bill, which amounted to \$121.00. There have been other charges since, on account of said pauper, against the town of Rumford that will have to be paid later to the city of South Portland.

During the year the New England Telephone Company has taken charge of the property situated in South Portland formerly belonging to the Northeastern Telephone Company. This has been done against the wishes of the city, and notwithstanding its protests and written notices forbidding such action. Under the fifth Article of the contract made with the City of South Portland, August 7, 1903, by the Northeastern Telephone Company, it was agreed as follows: "A sale, lease or transfer of the property or franchise of this company, whereby competition is destroyed or whereby the rates herein named are increased, shall cause a forfeiture to the city of all poles or conduits then installed in said city." Under this provision the city claims to own the plant, and Mr. Lewis A. Goudy, vice president of the company at the time the agreement was made, says it was the intention that South Portland should own the plant and he is willing to so testify. The plant includes the cables and wires as well as the tilings, and as this property cost a large amount of money we think it would be well for the city to assert its claims and rights, especially in view of the fact that the city of Lewiston has received the sum of \$9,000.00 and the city of Auburn has received \$5,000.00 from the New England Telephone Company on contracts very similar to the one we have. An inventory has been taken by the City Electrician of all the cables, wires and poles placed in the city by the Northeastern Telephone Company, and I am directed to bring suit against the New England Telephone Company for the conversion and the carrying away of the property placed in the city and abandoned by the Northeastern Telephone Company. Possibly the New England Company may strenuously contest the city's claims.

In addition to the services required in the cases already mentioned, attention has been called to the gravel pits near the high school and also near the burying ground. A decided stand should be taken by the city to prevent further removal of gravel which already endangers the city property.

Consideration has been also given to the new ward lines of the city and the city's liability in smallpox cases.

Numerous oral opinions have been given to the various departments and committees in relation to city business.

Respectfully submitted,

D. A. MEAHER,

*City Solicitor.*

## **Report of Board of Registration.**

---

*Honorable Mayor and City Council:*

GENTLEMEN:—The Board of Registration of Voters herewith respectfully submits its eleventh annual report. Our last report closed with an enrollment of 1,719 legal voters on the city voting list. In the municipal election session of this year we qualified the least number (55) of any corresponding session since our existence as a city. These added to the number before reported made a total of 1,774 names borne on the lists in the aforesaid municipal election.

In our last year's report the phrase occurred: "Unless something untoward and unforeseen arises in the political horizon," etc. The untoward did arise and a lot of unforeseen work was put upon us thereby. Our City Council, acting wholly under a provision of our city charter, undertook to change the city ward lines, and an ordinance was adopted to that effect. See City Report, 1908-09, pages 31 to 33. This Board was officially warned to be governed accordingly. Hence we held a special session for revising the lists to conform to the proposed new lines, following which we went to the printer with copy, which after the elimination of all known "deadwood" therefrom gave the following results: Ward 1, 237; Ward 2, 214; Ward 3, 286; Ward 4, 178; Ward 5, 267; Ward 6, 274; Ward 7, 278. Total, 1,734. Before the election for Water District Trustee, May 24, 1909, our City Solicitor discovered and announced a Statute law, Chapter IV, Sec. 34, long prior to our charter, which requires ratification by the voters, in a municipal election, of any change in city ward lines. This disclosure put us to work again, revising backward the newly-printed lists to the old conditions, and though it involved delicate and painstaking work we accomplished it so perfectly that in the aforesaid Water Trustee election, which brought out an unusually large vote, only a single error was brought to our notice.

In said election the law provides for only two days' opportunity for registration, and in that time 16 new names were added to the lists, making a total registration for the

year of 71, and bringing the grand total on the city voting lists up to 1,790 names. For reasons beyond our control our annual revision did not occur until September, and in that session and the one hereinbefore named (for making up new lists) 120 names were stricken off and 41 ward changes were made, leaving said lists, at the making of this report and as now posted for the ensuing March election, thus: Ward 1, 229; Ward 2, 252; Ward 3, 301; Ward 4, 223; Ward 5, 173; Ward 6, 227; Ward 7, 265. Total, 1,670 names. If, in the March election, the new ward lines are adopted, the first ward tabulation in this report shows approximately the apportionment of voters by wards. If the vote be to reject, the latter table, which shows the present assignments, will be the result. The next session of the Board for registration of voters will be incident to the forthcoming March election, and will begin Tuesday, March 1st, at 9 A. M. and close Friday, the 4th, at 5 P. M.

## Memorial Day Report, 1909.

---

*To His Honor, the Mayor, and the Honorable Board of Aldermen of the City of South Portland, Maine:*

GENTLEMEN:—I have the honor of submitting the following as the report of the observance of Memorial Sunday and Memorial Day, 1909, by the South Portland Veteran Association, the City Government and other organizations.

### MEMORIAL SUNDAY, MAY 30, 1909.

Owing to misunderstanding and contradictory statements issued by newspaper correspondents and other unauthorized parties as to where the Association was to attend divine worship, less than one dozen of the veterans came together at the North Church. With them were several members of the present and past City Government.

The sermon was by the pastor, Rev. John A. Waterworth, from text found in Gal. v, 1, 2, "Bear ye one another's burdens and so fulfill the law of Christ." National morality and purity was the theme. He spoke of the noble example of the soldiers of the Civil War, bearing the burdens not only of their day but of millions yet unborn. He said that in order to maintain the blessings that had been secured for us we must have public honesty and morality, and that no nation can long exist without them. Service closed by singing America and by the benediction.

### OBSERVANCE OF MEMORIAL DAY, MAY 31, 1909.

Veterans and their guests left Knightville at 9 a. m. and first visited Brown's Hill Cemetery, where appropriate services were held and graves of veterans were decorated, the school children kindly assisting with their songs. Bay View was next visited and ceremonies suitable to the occasion were held. Upon each resting place of a veteran were placed the customary flag and wreath. A large class of High School girls favored those present with touching and well-rendered choruses. After prayer, singing by the quartette and benediction, teams were again taken for Knightville, where dinner was served.

It is to be sincerely regretted that so many who had been with us up to this time should lose all interest in further proceedings and leave for the neighboring city, thus leaving the larger part of the work to be done by the few who considered it a duty not to be neglected, that of the service at Mount Pleasant, at the Soldiers' and Sailors' Monument and at the church.

Your secretary regards it as not showing proper respect to our dead comrades or to the citizens of our city, who so liberally vote us money for Memorial Day, to thus only pay partial respect to the day.

At Mount Pleasant 118 graves were decorated and in like manner the Soldiers' and Sailors' Monument, the children of the schools and the clergy assisting. The Sons of Veterans, who had offered to assist us, were conspicuous by their absence just when their services were most required.

After the out-of-door service was concluded the people gathered at North Church, where they were interested and charmed by the fine address of the orator of the day, Hon. L. M. Sanborn. Fine selections were rendered by the quartette, short addresses were made by ex-Mayor Weeks and Mayor Hamilton, Lincoln's Gettysburg address was read by Miss Edna L. Jordan, and the roll of honor was called by the secretary. Services were closed by prayer and benediction.

GEORGE F. SMALL,  
*Secretary S. P. V. A.*

## **Quartermaster's Report, S. P. V. A.**

---

The following exhibit, supplementary to the Secretary's Memorial Day report, is condensed from the Quartermaster's itemized account, showing for what purposes the city appropriation of \$125.00 was expended.

## Report of Special Accountant.

SOUTH PORTLAND, MAINE, March 8, 1910.

*To His Honor, the Mayor, and Board of Aldermen, South Portland, Maine:*

GENTLEMEN:—In accordance with the request of Mayor Hamilton, I have made a careful examination of the books and accounts of the City Treasurers, beginning with the first day of February, 1908, and ending January 31, 1910.

I herewith submit my report.

For the year 1908–9, W. G. Thomas, Treasurer, I find all moneys received and disbursed properly accounted for, and good and sufficient vouchers accompanying the same. I do not deem it advisable to give a detailed account of my findings, as they are clearly shown in the Tenth Annual Report of the City of South Portland, 1908–9.

For the year 1909–10, Sherman G. Willard, Treasurer, I find all moneys received and disbursed properly accounted for, and good and sufficient vouchers for the same. The following tabulation gives the financial transactions through the year 1909–10 and standing February 1, 1910.

## Vital Statistics.

OF THE CITY OF SOUTH PORTLAND, FOR THE YEAR  
ENDING JANUARY 31, 1910.

---

### NOTICE TO PARENTS, HOUSEHOLDERS AND OTHER PERSONS.

There are two good reasons why you should read this carefully and remember it. One reason is that, in connection with the registration of births, marriages and deaths, the law says that parents, householders and some other persons shall do certain things, and provides penalties for those who fail to comply with the requirements of the law. Another reason is that it is very important to individuals, to families and to the State that births, marriages and deaths be promptly, fully and accurately recorded.

The following are some of the requirements of the law relating to the registration of births, marriages and deaths :

**Births.**—The attending physician, midwife or other person in charge shall report the birth, living or stillborn, to the City Clerk within six days.

Parents, householders, keepers of workhouses, houses of correction, of prisons, of hospitals, of almshouses or of other institutions and the commanding officers of ships shall give notice of every birth or death happening among the persons under their charge.

(Blanks for reports may be obtained from the City Clerk, or by addressing : State Registrar, Augusta, Maine.)

**Marriages.**—Intentions of marriage shall be recorded by the City Clerk five days before the certificate of marriage is granted.

Intentions of marriage must be recorded in both towns when the parties to the marriage live in different towns.

The certificate (or certificates) made out by the City Clerk (or town clerks) must be received by the clergyman or justice of the peace before performing the marriage.

Every person authorized to unite persons in marriage shall make a record of every marriage solemnized before him, and in conformity with the requisitions prescribed upon the blank certificates of marriage shall, within six days, deliver or forward to the Clerk of each town in which the marriage intention was recorded, and to the Clerk of the town in which the marriage was solemnized, a copy of such record of marriage. Sec. 7, Chap. 61, of the Revised Statutes of Maine.

When residents of this State go into another State for the purpose of marriage, and it is there solemnized, and they return to dwell here, they shall file a certificate or declaration of their marriage with the Clerk of the town in which each of them then lived, within seven days after their return, or forfeit ten dollars, half to the prosecutor and half to the town where the forfeiture is incurred.

**Deaths.**—The undertaker, householder, neighbor or other person removing the body or superintending the burial shall furnish the City Clerk with a certificate giving the facts called for in the blank certificate of death, including the certificate of the physician as to the cause of death.

If the deceased person has not had the attendance of a physician, the City Clerk may issue the death certificate upon the receipt of the required facts.

(The facts required may be learned from the blank "death certificate" obtainable from any physician, undertaker or town clerk or by writing to: State Registrar, Augusta, Maine.)

On presentation of this certificate of death, a "burial permit" will be issued by the City Clerk or one of the sub-registrars.

This burial permit must be returned to the City Clerk of the town in which the death occurred within six days after the burial.

**False Returns.**—The law provides that "it shall be a misdemeanor for any person to make a false return in regard to any birth or death."

**Duty of Physicians.**—"A physician who has attended a person during his last illness shall within twenty-four hours after the death of said person make a certificate stating, to the best of his knowledge and belief, the name of the deceased, his age, the disease of which he died and the date of his death, and shall either deliver it to the person

superintending the burial, or leave it with the family of the deceased or at the said physician's office where it may be obtained when called for."

**Duty of Assessors.**—For the principal purpose of obtaining the names of children whose names have not otherwise been reported, the law provides that "the assessors shall, when taking the annual inventory, collect and return to the City Clerk, before the first day of June, the births which have occurred within their respective jurisdiction during the year ending December thirty-first next preceding, together with the names of such children."

There are various reasons which cannot be stated here why parents should be particular to have the birth of every child correctly recorded, including the name. Assure yourself that your physician has attended to his duty ; otherwise, it will be necessary to hold you, as well as him, responsible as a lawbreaker. You have a twofold responsibility here : your duty under the law and your duty to your child and your family.

The law makes it the duty of the City and Town Clerks and of the State Registrar to enforce the provisions of this law.

---

There have been returned to the City Clerk's office for record 79 marriages, 148 deaths, 141 births during the municipal year.

#### MARRIAGES.

1909.

## **APPENDIX.**

---

### **RULES OF THE CITY COUNCIL.**

**SEC. 1.** The presiding officer shall take the chair promptly at the time appointed for the meeting, and having called the Council to order, and a roll-call showing a quorum present, shall proceed at once to business.

**SEC. 2.** He shall be entitled to speak on questions of order, but not on any other question when occupying the chair; shall decide all questions of order subject to an appeal to the Council, declare all votes, preserve order and decorum, and shall appoint all committees unless they are otherwise provided for.

**SEC. 3.** When stating a question or motion, or when addressing the Council, the presiding officer shall rise, but may read sitting.

**SEC. 4.** When a question is under debate no motion shall be in order except the following:

1. To adjourn.
2. The previous question.
3. To commit.
4. To amend.
5. To postpone indefinitely.
6. To lay on the table.

**SEC. 5.** A motion to adjourn shall always be in order except when immediately repeated.

**SEC. 6.** The following questions shall be decided without debate:

1. To adjourn.
2. The previous question.
3. All questions of order and appeals from the decision of the chair thereon.
4. To lay on the table.

**SEC. 7.** When a vote has been passed, any member who voted in the majority may move a reconsideration of

said vote at the time, or at the next succeeding regular meeting, but not afterward, but a vote to reconsider shall require a majority of all the members of the Council.

SEC. 8. Every member present shall vote unless specially excused by the Council before the vote is taken.

SEC. 9. A motion to commit shall take precedence of all amendments of the main question.

SEC. 10. Every motion shall be reduced to writing if any member shall so request.

SEC. 11. The enacting form as an ordinance shall be as follows: "Be it ordained by the City Council." The form of an order shall be as follows: "In City Council, Ordered," etc. The form of a resolve shall be: "In City Council, Resolved," etc.

SEC. 12. When a vote is doubted, the members for and against the motion shall rise when called upon by the presiding officer and remain standing until counted.

SEC. 13. No member shall speak more than twice on the same question at any one meeting, unless by permission of the Council.

SEC. 14. The Council may resolve itself into committee of the whole on any question and the presiding officer shall appoint a member who shall occupy the chair.

SEC. 15. Special committees of the Council shall report within one month, unless further time is granted.

SEC. 16. When a member wishes to speak, he shall rise and address the presiding officer, and not proceed until recognized by the chair. He shall confine himself to the question under discussion and avoid intemperate and abusive language.

SEC. 17. The Clerk shall keep a record of all votes, orders, ordinances and other proceedings of the Council in a journal; shall prepare and present to the Mayor all votes, ordinances and documents requiring his signature, unless the Council shall otherwise direct; shall notify, or cause to be notified, all members of the Council of the time of special meetings, as provided by the charter; and shall perform such other duties, not inconsistent with the charter, as the Council may from time to time prescribe.

SEC. 18. All by-laws passed by the City Council shall be styled ordinances, and shall receive at least two readings before they are finally passed to be ordained, not more than one of which readings shall be at the same meeting of the City Council; and all amendments, alterations or repeals of ordinances shall be made in the same manner and subject to the same number of readings as original ordinances.

SEC. 19. None of these rules or orders shall be suspended unless by a two-thirds vote of the members present; and such suspension shall continue only during the meeting at which such vote is taken; and no rule or order shall be altered or repealed unless written notice shall have been given at a preceding meeting, nor unless a majority of all the members of the Council vote to so alter or repeal.

SEC. 20. All questions of order not herein provided for shall be decided by the presiding officer subject to an appeal to the Council.

#### ORDER OF BUSINESS.

The following shall be the order of business unless when otherwise determined by the Council :

1. Roll-call.
2. Reading of minutes.
3. Unfinished business.
4. Orders of the day.
5. Reports of the committees.
6. New business.
7. Adjournment.

## **Location of Fire Alarm Boxes.**

---

### **CENTRAL FIRE STATION, POWER HOUSE, KNIGHTVILLE, ME.**

#### **CITY OF SOUTH PORTLAND, ME.**

**FIRE CALL, 428-1, New England (Power House).**

In case of fire, telephone "Fire Call, 428-1," New England Telephone. This is the Central Fire Station of the City of South Portland, Me., and is directly connected with all the Fire Companies in the City of South Portland, Me.

- 1st. Give all information possible in regard to location of fire.
- 2nd. Give the name of the person whose telephone you are using, as this entitles that person to one hour's pay on fire pay roll for that fire
- 3rd. After giving all information possible, hang up your telephone and await repetition of your message. If it is not repeated within two minutes, call Central Fire Station again.
- 4th. Never telephone for fire seen at a distance.

# **ORDINANCES**

**OF THE**

## **City of South Portland**

---

**PUBLISHED BY THE**

**CITY OF SOUTH PORTLAND, MAINE**

**1910**

# CITY ORDINANCES.

---

## I. SEAL.

SECTION 1. The City of South Portland shall have a common seal, which shall be circular in form with the device of the seal of the State of Maine in the center, and the words, "City of South Portland, Incorporated 1898," in a circle about the same; all to be engraved on the face of the seal so that it may be embossed on paper by pressure.

## II. WARD LINES.

No change in ward lines, said dividing lines same as first adopted by city.

## III. FINANCIAL YEAR.

SECTION 1. The city financial year shall begin on the first day of February and end on the thirty-first day of the following January, including both days.

## IV. REGULAR MEETINGS OF COUNCIL.

SECTION 1. The regular meeting of the City Council shall be held on the second Wednesday evening of each month at 7.30 o'clock P. M.

## V. RULES OF THE CITY COUNCIL.

SECTION 1. The presiding officer shall take the chair promptly at the time appointed for the meeting, and, having called the Council to order, a roll-call showing a quorum present, shall proceed at once to business.

SECTION 2. He shall be entitled to speak on questions of order but not on any other question while occupying the chair; shall decide all questions of order subject to an appeal to the Council, declare all votes, preserve order and decorum, and shall appoint all committees unless they are otherwise provided for.

SECTION 3. When stating a question or motion, or when addressing the Council, the presiding officer shall rise but may read sitting.

SECTION 4. When a question is under debate no motion shall be in order except the following:

1. To adjourn.
2. The previous question.
3. To commit.
4. To amend.
5. To postpone indefinitely.
6. To lay on the table.

SECTION 5. A motion to adjourn shall always be in order except when immediately repeated.

SECTION 6. The following questions shall be decided without debate.

1. To adjourn.
2. The previous question.
3. All questions or orders and appeals from the decision of the chair thereon.
4. To lay on the table and take from the table.

SECTION 7. When a vote has been passed any member who voted in the majority may move a reconsideration of said vote at the same or at the next succeeding regular meeting, but not afterwards, but a vote to reconsider shall require a majority of all the members of the Council.

SECTION 8. Every member present shall vote unless specially excused by the Council before the vote is taken.

SECTION 9. A motion to commit shall take precedence of all amendments of the main question.

SECTION 10. The enacting form of an ordinance shall be as follows:

"Be it ordained by the City Council."

The form of an order shall be as follows:

"In City Council, Ordered," etc.

The form of a resolve shall be:

"In City Council, Resolved," etc.

SECTION 11. When a vote is doubted the members for and against the motion shall rise when called upon by the presiding officer, and remain standing until counted.

SECTION 12. No member shall speak more than twice on the same question at any one meeting unless by permission of the Council.

SECTION 13. The Council may resolve itself into committee of the whole on any question and the presiding officer shall appoint a member who shall occupy the chair.

SECTION 14. Special committees of the Council shall report within one month unless further time is granted.

SECTION 15. When a member wishes to speak he shall rise and address the presiding officer and not proceed until recognized by the Chair. He shall confine himself to the question under discussion and avoid intemperate and abusive language.

SECTION 16. The Clerk shall keep a record of all votes, orders, ordinances and other proceedings of the Council in a journal ; shall prepare and present to the Mayor all votes, ordinances and documents requiring his signature, unless the Council shall otherwise direct ; shall notify or cause to be notified all members of the Council of the time of special meetings as provided by the Charter ; and shall perform such other duties, not inconsistent with the Charter, as the Council may from time to time prescribe.

SECTION 17. All by-laws passed of the City Council shall be styled ordinances, and shall receive at least two readings before they are finally passed to be ordained, not more than one of which readings shall be at the same meeting of the City Council ; and all amendments, alterations or repeals of ordinances shall be made in the same manner and subject to the same number of readings as original ordinances.

SECTION 18. None of these rules or orders shall be suspended unless by a two-thirds vote of the members present ; and such suspension shall continue only during the meeting at which such vote is taken ; and no rule or order shall be altered or repealed unless written notice shall have been given at a preceding meeting, nor unless a majority of all the members of the Council vote to so alter or repeal.

SECTION 19. All questions of order not herein provided for shall be decided by the presiding officer, subject to an appeal to the Council.

#### ORDER OF BUSINESS.

The following shall be the order of business unless when otherwise determined by the Council :

1. Roll-call.
2. Reading of minutes.
3. Unfinished business.
4. Orders of the day.
5. Reports of committees.
6. New business.
7. Adjournment.

## VI. STANDING COMMITTEES.

SECTION 1. At the commencement of each municipal year, the following standing committees shall be appointed by the Mayor, unless otherwise ordered by the Council.

*On Finance and Claims.* — To consist of the Mayor and two Aldermen.

*On Public Works.* — To consist of the Mayor and two Aldermen, both of whom shall not be of the same political party, if more than one party is represented in the Board.

*On Public Buildings.* — To consist of three Aldermen.

*On Engrossed Ordinances and Printing.* — To consist of three Aldermen.

*On Laying Out of New Streets.* — To consist of the Mayor and two Aldermen.

*On Education and Schools.* — To consist of three Aldermen.

*On Street Lights.* — To consist of three Aldermen.

All committees shall report on the matters referred to them within one month.

## VII. COMMITTEE ON PUBLIC BUILDINGS.

SECTION 1. The Committee on Public Buildings shall have the care and custody of all the buildings belonging to the city, and of the erection, alteration and repair thereof, subject to such rules, orders and regulations as the City Council may from time to time adopt.

## VIII. COMMITTEE ON STREET LIGHTS.

SECTION 1. It shall be the duty of the Committee on Street Lights to locate all lights for which they are authorized by the Council to contract, and make such rules, orders and regulations respecting said lights and for the preservation of the same as they may consider necessary.

SECTION 2. Lamp posts and posts for protecting them may be located within the limits of any street of the city by the "Committee on Street Lights," subject, however, to re-location or removal by the Council, and any post so located shall be taken to be legally established.

SECTION 3. When an order is given under the provisions of this ordinance it shall be recorded by the City Clerk in a book provided for that purpose and kept in his office.

## IX. CITY AUDITOR.

SECTION 1. The Auditor of the City of South Portland shall before entering upon the discharge of his duties qualify by oath or affirmation, and if so ordered by the Council, give bond for the faithful discharge of his duties in such sum as they shall direct.

SECTION 2. He shall perform all the duties now incumbent upon Auditors of towns, and shall receive all bills and accounts presented against said city for payment, examine them in detail and present them to the proper departments or committees for their approval, and at such times as the City Council may determine present them to it for its examination and approval.

SECTION 3. He shall have the custody and control of the current expenditure books of the city, and shall cause to be entered therein all appropriations made by the City Council, and he shall charge against the several appropriations all expenditures of the city that are properly approved by the department or committee contracting the same; he shall, when the various bills and accounts have been approved by the City Council and the order of the Mayor signed therefor, issue to the City Treasurer a certificate, or order, authorizing the Treasurer to pay the amount of the bill or account, which amount shall be stated both in figures and writing on the certificate, or order, together with the appropriation to which it is charged, and the said certificate, or order, when properly received by the payee, shall be the Treasurer's voucher for the money so disbursed.

SECTION 4. The Auditor shall approve no bills until the City Council has provided by appropriation funds sufficient to meet the same in the account against which the bill is to be charged, *provided, however,* that after the expiration of the financial year, and until the passage of the annual appropriations, he may approve bills under any department or regular appropriation to an amount not exceeding one-fourth of the total of such appropriation for the preceding year. Whenever the appropriation for any department or specific object shall have been exhausted he shall immediately communicate the fact to the City Council that it may be apprised of the same and take such further action as it may deem expedient. In case of any new or additional appropriation being made, or any transfer of money from one department or regular account to another by the City Council or any receipt of moneys, in addition to the amounts

appropriated by the City Council, which are regularly credited to any particular account or accounts, the City Clerk, and in the last instance the Treasurer, shall immediately certify the fact to the Auditor.

SECTION 5. The Auditor shall annually, before the election or at such time as the Council may order, publish a detailed report of the expenditures of the city for the fiscal year; and at the regular monthly meetings of the City Council, or at such times as the Council may direct, he shall lay before the said Council a statement showing the amounts credited upon his books under each specific account and under each regular department, and the total expenditures charged to the same at the time of making said statement, in order that the City Council may at all times be apprised of the unexpended balance under each specific account or department.

It shall also be the duty of the Auditor to render any other services from time to time as the City Council may direct.

#### X. CITY SOLICITOR.

SECTION 1. It shall be the duty of the City Solicitor to draft all bonds, contracts, or other legal instruments, which may be required of him by any ordinance, or by order of the City Council for said city and which by law, custom or agreement are to be drawn at the expense of the city; also to prosecute, or defend, as the case may be, all suits in which the city may be a party or interested, and to do all and every professional act incident to the office, or which may be required of him by the city government, or by any order or ordinance of the City Council. And the said Solicitor shall also, whenever required, furnish the Mayor or the City Council or any of its committees with his opinion in writing on any legal subject which may be submitted to him, and shall render professional advice to the Overseers of the Poor, or any officers of the city government who may require his opinion on any subject touching the duties of their respective offices. Said Solicitor shall annually, before the close of the municipal year, make a report in writing to the City Council of the unfinished business in his department, including the name, grounds and stages of progress of all suits pending in which the city is a party, or interested, with the names and results of such suits affecting the city as may have been decided or adjusted during the year, and

such other information as to the business of his department as he may think important or the City Council may direct.

## XI. CITY PHYSICIAN.

SECTION 1. The City Council shall annually on the second Monday of March, or as soon thereafter as may be, elect a City Physician, who shall hold office for one year.

SECTION 2. It shall be the duty of the City Physician to attend, under the general direction of the Overseers of the Poor, all patients in care of said Overseers, whether at the almshouse or elsewhere in the city limits, *provided* that in case of services rendered paupers whose settlement is not in this city, the City Physician shall be entitled to collect regular fees from the place of said pauper's settlement. In case of an alarm of any contagious or infectious disease, he shall give to the City Council or any committee thereof such professional advice and counsel as they may require of him, and if there be persons afflicted with smallpox, he shall care for such patients and receive therefor, without regard to number, the sum of ten dollars per day for one visit to the house of isolation, if the same be necessary, and the sum of five dollars for each necessary additional visit, *provided* that the total remuneration for a single day of twenty-four hours shall not exceed in any case twenty-five dollars. All scholars of the public schools sent to him by the school committee for that purpose shall be vaccinated at a charge of fifty cents each. He shall be reimbursed by the city for all medicine furnished by him to pauper patients.

SECTION 3. Before entering upon the discharge of his duties, he shall signify in writing his acceptance of the office, and thereupon he shall be held to perform the duties of the office, as stated in this ordinance, during the term for which he was elected, unless he be removed for cause or his resignation be accepted by the City Council.

## XII. CITY ELECTRICIAN AND ELECTRICAL APPLIANCES.

SECTION 1. The City Council shall annually on the second Monday of March, or as soon thereafter as may be, elect one person skilled in the science of electricity to be styled "City Electrician" who shall hold office until a suc-

cessor is duly elected and qualified. He shall be removable at the pleasure of the City Council and shall receive such compensation for his services as the Council may determine. If deemed advisable by the Council the same person may be elected to the office of Inspector of Buildings and City Electrician.

SECTION 2. It shall be the duty of the City Electrician thoroughly to inform himself in regard to the location of all telegraph, telephone or other electrical lines within the city, and so far as it may affect life and property the situation and condition of all electrical appliances whatsoever, promptly reporting to the Mayor everything he considers hazardous, as also any violation of statute laws or city ordinances.

SECTION 3. The City Electrician shall supervise every wire or cable over or under streets or buildings ; he shall notify the person or corporation owning or operating any such wire or cable whenever its attachments, insulation, supports or appliances are unsuitable or unsafe, and shall cause to be removed at the expense of the owner thereof every wire abandoned for future use ; he shall see that all statutes, ordinances and regulations relating to his duties and to the location, erection, maintenance, insulation and removal of wires or cables over or under streets or buildings are strictly complied with and enforced.

SECTION 4. The City Electrician shall, when so required by the Mayor or Aldermen, examine every application for the erection of any wire or poles or posts for the support thereof in and over any street or public place or for conduits under any street or public place for such wire and shall report to them any facts which in his opinion bear upon the question of granting or refusing to grant such application.

SECTION 5. The City Electrician shall have authority whenever in his opinion the public safety requires to direct any person or corporation using or operating any electric wire to shut off the electric current therefrom for such period of time as he may deem necessary.

SECTION 6. Every person or corporation owning or operating a line of wire over streets or buildings in the city shall use only wires that are suitable and strong ; shall suitably and safely attach them to strong and sufficient supports and properly insulate them at all points of attachment ; shall remove all wires abandoned for future use ; shall suitably

insulate every wire where it enters a building and if such wire is other than a wire designed to carry an electric light or power current shall attach to it at suitable and convenient points in the circuit, in order to prevent danger from fire, and near the place of entering the building an appliance calculated to prevent at all times a current of electricity of such intensity or volume as to be capable of injuring electrical instruments or causing fire from fire entering the building by means of such wire.

**SECTION 7.** The City Electrician shall have access at all reasonable times to all wires, appliances and apparatus in the interior of the public buildings or on private premises which are intended for carrying an electric light or power current, and no person shall arrange, fix or change any such wires or apparatus without giving the City Electrician reasonable opportunity to inspect such wires and their arrangements and fixtures before the same are covered or inclosed, and no such wires shall be placed in any building in process of construction until all gas, steam, sewer, water and furnace pipes have been placed in proper position. Such wires in the interior of buildings, or on private premises, shall not be connected with any outside circuit which crosses or runs along, over or under any street or way of the city without written permission therefor having been first obtained from the City Electrician.

Before issuing such permit the City Electrician shall be paid therefor the sum of fifty cents, and in addition thereto he shall be entitled to receive a reasonable amount, not to exceed fifty cents per hour, for the time spent in making the necessary inspection in the premises, all of which shall be paid by the party desiring such permit.

**SECTION 8.** Every person or corporation owning, leasing or operating wires as above described shall, within forty-eight hours after notice served by the City Electrician, make such substitution or repairs of posts, supports, cross-arms or stays for the safe carrying of such wires as may be required by the City Electrician.

**SECTION 9.** No person or corporation shall permit pieces of wire to be left on the surface of any street or sidewalk, or permit unused coils or loose ends of wire to remain attached to any cross-arm or post more than twenty-four hours.

**SECTION 10.** Upon the request of the City Electrician persons or corporations operating electric or other wires

upon, over or under any street or building shall within fifteen days thereafter furnish accurate lists of the location of their poles, the number of cross-arms thereto affixed and the number of wires thereto attached, the location of subways and manholes, and other information in relation to their appliances, together with the locations where service is rendered, viz.: telegraphic, telephones, electric lighting, specifying either arc or incandescent or for electric power.

SECTION 11. The City Electrician upon application therefor to any person or corporation operating electric or other wires within the city shall be furnished with such information as to the kind, size and tested strength of supporting service wires, the average volts charged and used, together with such information as may by him be considered necessary to the faithful and effectual discharge of his duties under the law and the ordinances of the city.

SECTION 12. All poles carrying wires shall be designated by stencil with names of companies or persons owning or using the same. Whenever an electric light current is carried into a building by conductors from an exterior source a suitable shut-off or "cut-out" must be provided at a point as near as possible to the entrance of such building.

SECTION 13. All wires placed above the surface of the ground shall be suspended from poles, buildings or other supports to be maintained by the persons or corporations using such wires.

SECTION 14. No wire shall be suspended from or attached to any building for the purpose of conducting electricity unless by special permission of the owner of such building.

SECTION 15. All persons and corporations exercising any privileges under this ordinance shall adopt and use in their business any devices and safeguards which may from time to time be discovered or invented for the protection of persons and property against injury growing out of the use of electric current if required so to do by the City Council. Whenever the laying of electric wires beneath the ground shall be deemed by the City Council practicable all persons and corporations maintaining or using wires above ground shall when so required by the City Council take down and remove at their own expense all their poles used for the support of such wires and place their mains and conducting wires beneath the ground, and all authority to erect and maintain poles for the purposes aforesaid shall then cease.

SECTION 16. The erection by any person or corporation of any wire, pole or other fixture for electrical purposes in the City of South Portland after the passage of this ordinance shall be held to be an agreement on the part of such person or corporation to comply with all the requirements, rules and conditions contained in this ordinance.

SECTION 17. Every person or corporation erecting or maintaining or using such poles or wires shall, in the case of loss or damage, indemnify and save harmless the City of South Portland, its officers, agents and servants from and against all lawful claims and demands for injuries to person or property occasioned by the existence of such poles or wires or the transmission of electric current by the means thereof, and the said city, its agents and servants exercising the rights and powers given herein, shall not be held liable by such person or corporation on account thereof by reason of any injury or damage caused thereby.

SECTION 18. All poles erected and wires strung in the city shall be subject to the following conditions: That no permanent rights shall be obtained in the streets or public grounds by reason of such use, and that such wires or poles shall be subject to change of location or removal when deemed necessary for the public interests on order of the City Council, and in case of fire such wires may be cut or removed if necessary by order of the City Electrician or Fire Chief without claims upon the city therefor.

SECTION 19. All persons violating any provision of this ordinance shall be subject to a penalty of not exceeding twenty dollars for each offense by complaint to the use of the city.

### XIII. FIRE CHIEF.

SECTION 1. The City Council shall annually on the second Monday of March, or as soon thereafter as may be, elect a Fire Chief, who shall not be a member of the Council, nor of any volunteer fire company in the city, and who shall hold office for one year, subject to removal for cause.

SECTION 2. It shall be the duty of the Fire Chief to answer all fire alarms personally and to take full charge and direction of the work of fighting the fire, and the officers and members of all volunteer fire companies, as well as all individuals who may respond to alarms, shall be entirely subject to his orders and directions.

**SECTION 3.** He may make such rules and regulations, subject to the approval of the City Council, as in his judgment are necessary and proper governing the manner in which fire companies and individuals shall respond to alarms and in any way pertaining to the work of fighting fires.

#### XIV. INSPECTOR OF MILK.

**SECTION 1.** The City Council shall annually on the second Monday of March, or as soon thereafter as may be, elect an Inspector of Milk, who shall be sworn, give notice of his appointment, keep an office and books, and have all the powers and perform all the duties set forth and prescribed in the statutes of the State relating to the sale of milk and the inspection thereof.

**SECTION 2.** It shall be the duty of every person, firm or corporation now or hereafter engaged in the business of selling milk within the limits of the city, to file annually during or previous to July with the Inspector a statement of his name, residence and place of business, or if he sells milk from a cart, of such fact, to the end that such statement may be recorded in a book kept for that purpose, and in default of so doing such person, firm or corporation shall forfeit the sum of twenty dollars to the use of the city to be recovered on complaint.

**SECTION 3.** It shall be the duty of the Inspector to receive and record all such statements and to grant a certificate of such filing upon the request of the person, firm or corporation filing the same. The Inspector, when thereto requested in writing by any citizen of South Portland, shall make an inspection within the limits of the city of any milk sold or offered or intended for sale within the same, and also upon his own motion, without previous notice, as often as once a year, and oftener at his discretion, shall visit all places of business and carts in and from which milk is sold in the city, and make thorough inspection of the kind and quality of milk found in such places of business and carts offered or intended for sale. It shall also be the duty of the Inspector to prosecute all violations of law or of the ordinances of the city relating to the sale of milk. At the close of each municipal year the Inspector shall make a detailed report to the Board of Mayor and Aldermen.

**SECTION 4.** The compensation of the Inspector shall be as follows: Twenty-five cents for recording a statement

and granting a certificate therefor, to be paid by the person requesting the same. Fifty cents for making an inspection of milk, to be paid by the person requesting the same to be made. And the Inspector shall be entitled to one-half of all forfeitures accruing to the city in all prosecutions instituted by him for violation of the law or of the ordinances of the city relating to the sale of milk.

#### XV. WEIGHERS AND GAUGERS.

SECTION 1. The City Council shall annually on the second Monday of March, or as soon thereafter as may be, elect one or more city weighers and gaugers, who shall be sworn to the faithful performance of the duties of their office, and who shall continue in office until removed or until a successor is elected and qualified.

SECTION 2. It shall be the duty of the said weighers and gaugers, when thereto requested by the owner, to weigh or gauge, as the case may be, the contents or capacity of any pipe, hogshead, tierce, barrel, cask, box and other vessel or article, and mark the contents and tare and outs, as the case may be, and the initials of his name and office on each such vessel or article he shall so weigh or gauge.

#### XVI. WEIGHERS OF HAY, STONE, ETC.

SECTION 1. The City Council shall annually on the second Monday of March, or as soon thereafter as may be, elect one or more weighers of hay, straw, stone and coal, and two or more measurers of wood, bark and charcoal, who shall be sworn to the faithful performance of the duties of their office and shall hold their office during the municipal year and until others are appointed in their stead, unless sooner removed by a vote of the City Council.

SECTION 2. In case of a vacancy in said office by resignation, removal or otherwise, the City Council shall proceed to fill the same by a new election for the residue of the year.

#### XVII. SALARIES.

The salaries of the various officials in the employ of the City of South Portland are hereby established as follows:

City Clerk.....	\$ 800 00	per annum
Treasurer and Collector.....	1,200 00	" "
City Physician.....	100 00	" "
City Solicitor.....	250 00	" "

City Auditor.....	\$ 250 00 per annum
Commissioner of Public Works.....	1,200 00 " "
Inspector of Buildings... .....	50 00 " "
City Electrician.....	25 00 and fees
Chairman Board of Assessors.....,	375 00 per annum.
Each other member of " .....	350 00 " "
Chairman Board of Overseers of Poor...	100 00 " "
Each other member of " " " .....	50 00 " "
Members of Board of Health.....	25 00 " "

All fees collected by the Treasurer and Collector and City Clerk shall be paid into the treasury for the use of the city, each of which officers shall keep a record of all fees in a separate book, kept for that purpose. This ordinance shall not be construed to deny the right of any city official or employee not named herein to such salary or compensation as he is now lawfully entitled to receive.

All clerk hire of the City Clerk, City Treasurer and Assessors to be paid for by said Clerk, Treasurer and Assessors.

### XVIII. BUILDINGS.

SECTION 1. All persons intending to erect or to make any alteration in the external walls of any building or buildings of any description, any part of which is to be placed upon or within ten feet of any of the public streets, squares, lanes or alleys of the city, shall, before they proceed to erect the same or to lay the foundation thereof or to make such alteration, give notice in writing of their intention with the precise location and the name of the owner or owners of the land, to the Mayor and Aldermen of the city, fifteen days at least before doing any act or carrying their intention into execution, in order that any encroachment or any other injury or inconvenience to said streets, squares, lanes or alleys, which might otherwise happen, may be thereby prevented; and in default thereof, the city shall be discharged from all damages, of any nature whatsoever, resulting from the failure to give notice as aforesaid, particularly from all such damages as have been enhanced or occasioned by reason of anything done previous to or without such notice; and if any person shall neglect to give such notice he shall forfeit and pay a penalty of not less than ten nor more than twenty dollars and a like penalty for every day that he shall so neglect to give notice after he shall commence building or erecting the same or laying the foundation thereof or the making of such alteration, to be recovered by complaint.

SECTION 2. It shall be the duty of the Mayor and Aldermen immediately to inform the Commissioner of Public Works of all such notices and he shall proceed forthwith to mark out and define the lines, bounds and grade of any public streets, squares, lanes or alleys adjoining the estate of the person giving notice as aforesaid, *provided*, that in case any uncertainty exists as to the location of said line arising from the absence of original established or accepted bounds or any other cause whatsoever the Commissioner of Public Works shall report such fact to the City Council in order that such action as may be necessary to the best interests of the city may be taken.

SECTION 3. No building or buildings exceeding ten feet in height shall be hereafter erected within the city limits without a permit in writing, which shall be issued by the City Clerk only on recommendation of the Inspector of Buildings or of the Board of Mayor and Aldermen.

SECTION 4. Any such building erected in violation of this ordinance shall be and hereby is declared to be a nuisance and may be removed as such.

SECTION 5. No person shall obstruct any street or any part thereof by placing therein any house, barn, stable, shop or other building, and no person shall remove or draw through or upon any street any house, barn, stable or other building without first obtaining permission therefor from the Mayor and Aldermen, and if they require it, filing a bond with sufficient sureties, approved by the Mayor, with the Treasurer of the city conditioned to indemnify the city for all damages sustained by drawing or removing such building; and if any building shall remain in any street or place beyond the time allowed by such permit the Mayor and Aldermen may cause such building to be taken down or removed from the street at the expense of the owner thereof.

SECTION 6. Any person violating any of the provisions of the preceding section shall forfeit and pay for each offense a penalty of not less than twenty dollars and shall further be liable to indemnify the city for all damages which it may suffer in consequence of such violation.

#### XIX. ESTABLISHMENT OF TREES, LAMP POSTS, POLES, HYDRANTS, ETC.

SECTION 1. All trees, lamp posts, poles, posts and hydrants now placed and being within the limits of the

streets of the city are hereby declared to be and shall be taken to be legally established and located, subject, however, to relocation or removal by order of the City Council.

SECTION 2. Any tree, lamp post, pole, post or hydrant, or any post for the protection of the same, shall be taken to be legally established within the limits of any street of the city when it has been located therein by order or with approval of the Mayor or Committee on Streets, Sidewalks and Bridges, or Street Commissioner, subject, however, to relocation by order of the City Council.

SECTION 3. When an order is given under the provisions of this ordinance, it shall be recorded by the City Clerk in a book provided for that purpose and kept in his office.

## XX. DRAINS AND SEWERS.

SECTION 1. Chapter 285 of the Public Laws of the State of Maine, approved March 9, 1889, entitled, "An Act Relating to Construction of Drains and Common Sewers," is hereby accepted, and all public drains and common sewers hereafter constructed in the City of South Portland shall be built and the assessments therefor shall be made under the provisions of said act.

SECTION 2. The amount paid to the city on account of sewer assessments shall, in the case of sewers constructed from funds raised by the issuance of bonds or notes of the city, be credited to the Sinking Fund and devoted to the reduction of the city debt, and the amount received from sewer assessments in case of sewers built from the regular appropriation for sewers shall be credited to that account and be added thereto, and may be expended as in the case of the original appropriation.

SECTION 3. No person shall dig up any street, highway or town way, for the purpose of laying down any drain or sewer or connecting his private drain with any public drain or common sewer without having first obtained permission of the Mayor and Aldermen therefor, as provided in Sections 4 and 5 of this ordinance, under a penalty of twenty dollars.

SECTION 4. The permission of the Mayor and Aldermen shall be evidenced by a written license, signed by the City Clerk, which shall describe the sewer to be entered and the boundaries of the lot or parcel of land permitted to be drained therein. No such license shall be granted by the City Clerk until satisfactory evidence has been furnished that the sewer

assessment on the particular lot therein referred to has been paid, and said license shall have attached thereto or printed thereon a copy of this ordinance and shall be granted only upon payment to the City Clerk of a license fee of fifty cents, and each permit shall be recorded by the City Clerk before it is issued.

SECTION 5. All applications for sewer permits shall be in writing and describe the boundaries of the lot to be drained and the sewer to be entered. They shall be signed by the owner of the property applying therefor, who shall agree therein to observe all the provisions of this ordinance and the regulations of the sewer committee in making the excavations and connections with the sewer.

SECTION 6. All private and side drains shall enter the main sewer at the inlets of Y's provided therefor at the time of the construction of the main sewer, and any person who shall enter a public drain or sewer in any other manner, without a special permit therefor, shall forfeit and pay a penalty of twenty dollars.

SECTION 7. Excavations and connections for the purpose of connecting private drains with the public sewers of the city shall be made only under the direction and supervision of the Commissioner of Public Works, and no excavation shall be refilled until the connection made by the side or private drain with the public sewer has been inspected and approved by the Commissioner of Public Works in writing. The party asking for such license shall pay the City Treasurer all expense incurred by the city in the performance of said work, and the amount paid shall be credited to the appropriation for sewers, and may be expended as in the case of the original appropriation. Any person violating the provisions of this section shall forfeit and pay a penalty not exceeding twenty dollars.

SECTION 8. Permission shall not be given for any private drain or sewer to connect with any public sewer, unless the same shall have been constructed subject to the inspection and approval of the Commissioner of Public Works, nor until the person asking for such permission shall present a certificate from the Commissioner of Public Works, stating that such private drain or sewer has been properly constructed and that it is expedient for the desired permission to be granted.

SECTION 9. No new street within which a private drain or sewer is laid shall be accepted until arrangements have

been made by which all interest in such drain or sewer shall be assigned to the city.

SECTION 10. It shall be the duty of the Commissioner of Public Works promptly to report all violations of this ordinance, that the penalties provided herein may be properly enforced.

## XXI. COLLECTION OF HOUSE OFFAL.

SECTION 1. All house offal, whether consisting of animal or vegetable substance, shall be deposited in convenient vessels and be kept in some convenient place, to be taken away by such person or persons as shall be appointed by the Mayor and Aldermen for that purpose.

SECTION 2. A suitable person or persons shall be appointed and licensed annually who shall provide a proper vehicle for the purpose, which shall pass through the streets in the thickly settled portions of the city as it may be necessary, to receive and carry off the house offal accumulated in the vessels aforesaid.

All persons shall promptly deliver the offal so accumulated on their premises to the person appointed as aforesaid to receive the same.

SECTION 4. No person shall go about collecting house offal consisting of animal or vegetable substances, or carry the same through any of the streets, lanes or courts of the city, except the person appointed as aforesaid, or his deputy, under a penalty of not more than twenty dollars for each and every offense.

## XXII. REGISTRATION OF PLUMBERS AND PLUMBING.

### GENERAL REGULATIONS.

These regulations shall be held to include and govern all work done and materials used (1) in introducing, maintaining and extending a supply of water through a pipe or pipes in any building, lot, premises or establishment; (2) in connecting or repairing any system of drainage whereby foul, waste or surplus water, gas, vapor or other fluid is discharged or proposed to be discharged through a pipe or pipes from any building, lot, premises or establishment into any public or house sewer, drain, cesspool, pit, box, filter-bed or other receptacle, or into any natural or artificial water-course flow-

ing through public or private property ; (3) in ventilating any house sewer, or any fixture or appurtenance connected therewith ; (4) in excavating in any public street, avenue, highway, road, court, alley or space, for the purpose of connecting any building, lot, premises or establishment with any service pipe, house sewer, public water main, public sewer, subway, conduit or other underground structure.

SECTION 1. No person shall engage in, or continue in, the business of plumbing or constructing system of house drainage, either as master plumber or as journeyman, until he has received a license to carry on such business under existing ordinances and registered his name with the Board of Health. The fees for license shall be \$1.00 for master plumbers and 25 cents for journeymen for a period of one year dating from May 1 of each ensuing year.

SECTION 2. Every master or journeyman plumber engaged in business or doing work in the City of South Portland shall appear in person at the office of the Board of Health, at such times as the Board shall appoint, and register his name and place of business.

SECTION 3. Journeymen and master plumbers are responsible for work done by those working under them, as apprentices, laborers or helpers, and any licensed plumber who shall neglect or refuse to comply with these regulations, or with the conditions of his permit, shall have his license suspended or revoked, and shall be thereby debarred from obtaining permits or doing plumbing work for such length of time as the Board of Health may deem just and proper, and shall also be liable to prosecution.

SECTION 4. Each journeyman plumber and master plumber who does the work of a journeyman plumber will be required to show to the Board by an examination that he possesses the knowledge, ability and capacity requisite to do the work of his trade in a thorough and workmanlike manner.

SECTION 5. Any violation of the provisions of the foregoing section, or of the provisions of the rules and regulations prescribed by the Board of Health with reference to the registration of plumbers or methods of doing work, shall be deemed a misdemeanor and punished by a fine not exceeding twenty dollars.

SECTION 6. It shall be the duty of every plumber to give to the Secretary of the Board immediate notice of any change of residence or place of business, for the correction of the register.

**SECTION 7.** No permit shall be issued to any licensed plumber during the time that he shall fail to remedy any defective work, after the sending of a written notice that he has been held responsible therefor under these regulations.

**SECTION 8.** It shall be the duty of every person constructing or owning any drain, soil-pipe, passage or connection between a sewer and any ground, building, erection or place of business, and in like manner the duty of the owners of all grounds, buildings, erections, and of all parties interested therein or therat, to cause and require that such drain, soil-pipe, passage or connection shall be adequate for its purpose, and shall at all times allow to pass freely all material that enters or should enter the same, and no change of drainage, sewerage or the sewer connection of any house shall be permitted unless notice thereof shall have been given the Board of Health, and assent thereto obtained in writing.

**SECTION 9.** Annually in the month of April, the Board of Health shall appoint an Inspector of Plumbing, who shall hold office for the term of one year from the first day of May, unless sooner removed from office by the said Board of Health, who shall have full power to remove said Inspector for cause or when they deem it for the best interest of the city so to do.

Said Inspector shall inspect all plumbing installed, and if found in accordance with these rules and regulations, issue a certificate of inspection.

Architects, owners and others are advised to request such certificate before accepting the work.

Under no circumstances shall any plumbing be installed without a permit from the Board of Health.

**SECTION 10.** It shall not be lawful for any person or persons to connect or cause to be connected any building, lot, premises or establishment with any water main, public sewer, or with any sewer pipe for water, or any house sewer, or with any subway, conduit or other underground structure, without permission therefor from the Mayor and Aldermen and a permit in accordance therewith from the City Clerk, before commencing any part of the work.

The provisions of this paragraph shall apply to all water mains, sewers and water service pipe, plumbing and system of drainage or piping, whether on private property or in any public street, and to each separate building, whether situated on the same or different lots and connected, or proposed to

be connected, directly or indirectly, with any water main, water service pipe, public or house sewer, subway, conduit or other underground structure. The conditions of this permit must be strictly complied with and the work must be done by the plumber in whose name the permit is given.

No fee, however, will be required for a permit to make connection with any public sewer, house sewer, water main or service pipe when all the work, including the place of connection, lies wholly within the limits of private property, nor for the adjustment to grade of a downspout connection and clean-out, the adjustment to grade of a fresh-air inlet and clean-out, and the adjustment to grade of a standpipe, used for supplying water for building purposes; but in every case a permit must be taken out as required and kept upon the work.

Every application for a permit for work to be done under this rule shall be signed by the owner of the premises, whose address shall be written under his signature, and by the registered plumber or other person who is to do the work. Signature by agent shall not be accepted if the owner resides in the city. Any licensed plumber presenting a fraudulently signed application shall have his license revoked.

All houses and other buildings on premises abutting on a street in which there is a public sewer shall be connected with the sewer by the owner or agent of the premises, in the most direct manner possible, and, if feasible, with a separate connection for each house or building.

**SECTION 11.** No person, firm or corporation, carrying on the business of plumbing and house drainage, shall allow his or their name to be used by any person, directly or indirectly, whether to obtain a permit or permits or to do any work under his or their license.

**SECTION 12.** Every application to connect a building, lot, premises or establishment with water main, water service pipe, or private or public sewer, conduit or subway or other underground structure, or to repair a house sewer or service pipe for water or gas, must state the exact location and number of the building or premises, and the number of the lot and square.

**SECTION 13.** All materials used must be of good quality and free from defects. All work must be executed in a thorough and workmanlike manner, and no work shall be covered or in any way concealed until it has been inspected

and tested by said Board of Health and a certificate of approval issued to the person doing the work.

For the purpose of this inspection and testing, due notice shall be given the Board, in writing, when the work is sufficiently far advanced for its proper performance. If any work is found unsatisfactory it shall be, within a reasonable time, to be fixed by the Board in each case, either made satisfactory or removed by the person doing the work or having it in charge; which, if he fails to do, the Board will have the work done at his expense or that of the owner or agent, and the name of the plumber doing or responsible for the work shall be stricken from the list of registered plumbers.

**SECTION 14.** The drain from the sewer to the house-drain junction must be of hard salt, glazed, cylindrical earthen ware, cement or iron pipe, free from defects and not less than six inches in diameter. It must be laid upon a smooth bottom and in a perfect line, both laterally and vertically, with a fall of at least one-quarter of an inch to the foot, and more when practicable. All joints in earthen or cement pipes must be uniformly and completely filled with best hydraulic cement, none of which must be forced into the pipe, to obstruct its caliber, and in iron pipe either calked with lead or have screw joints.

**SECTION 15.** The house drain, from a point at least five feet outside the cellar wall and for such distance as same may be covered with earth or concrete, shall be of extra heavy cast iron pipe, at least four inches in diameter and of uniform thickness, free from holes and cracks and with tight calked leaded joints (unless wrought iron pipe with screw joints is used); this pipe shall not be subjected to pressure when passing through the wall and shall extend by the most direct course to receive the fittings to at least two feet above the roof of the building, undiminished in size, and its top shall not be obstructed by any hood or cowl, but may have a wire basket on its top; if in an addition or ell, its height must have a safe relation to the roof of the main house.

Above the basement floor standard pipe may be used. All horizontal portions shall have a fall of at least one-quarter inch to the foot, and more if practicable; shall be firmly ironed or secured to the cellar walls, suspended from or laid on floor timbers unless this is impracticable, in which case they may be laid in a brick or cemented trench in the cellar bottom. There shall be a main running trap with an

accessible clean-out, with gas tight plug or cover and a water seal of sufficient depth, either just outside or just inside the cellar wall, and also an inlet for fresh air, to enter the drain just inside the main trap, said inlet to be at least three inches in diameter and to open on the outside of the building, not less than eight feet from the nearest window or cold air draft for the furnace. The main drain shall also have an opening for cleaning purposes, closed with a brass screw plug or a Barrett clean-out.

All fittings used in connection with this drain or soil pipe must correspond with it in weight and quality.

**SECTION 16.** Every sink, basin, bathtub, slop-hopper, and each set of trays, and every fixture having a waste pipe shall be furnished with a trap placed as near fixture as practicable, and no trap shall be placed at the bottom of a vertical line of waste pipe; all traps, requiring it, shall be protected from air pressure or siphonage by a special air pipe of not less than one and one-quarter inch diameter, extending through the roof to a height of at least two feet, or into soil pipe above the highest fixture; or some other appliance approved by the Board. Vent pipes for water-closet traps must be of not less than two inch bore for thirty feet or less, and of three inch bore for more than thirty feet. No trap vent pipe shall be used as a soil or waste pipe. All vent pipes must have a continuous pitch, to prevent collecting water by condensation. Drip or overflow pipes from safes under fixtures or from tanks shall be run into some open place where they can be seen, and in no case connected with a soil or waste pipe.

**SECTION 17.** No ventilator for sewer, soil or waste pipe, trap or drain shall be constructed of brick, sheet metal or earthen ware, nor shall any chimney flue be used for such ventilator. Rain water leaders, when connected with soil or drain pipes, shall be of iron through the outside wall, connected with deep sealed trap, with clean-out on house side. All surface drainage shall be connected with deep sealed traps. All sub-soil drains shall have a trap outside the cellar wall and connect with drain or sewer at least five feet outside of said wall.

**SECTION 18.** Every water-closet must be supplied with water from a tank or cistern, and the flushing pipe shall not be of less than one and one-quarter inches inside diameter. No pan closet will be allowed, nor shall any closet be flushed

direct from Sebago pipes. Water-closets in the cellar of tenement or lodging houses will only be allowed by special permission of the Board of Health.

SECTION 19. The following weights of iron pipe, per linear foot, will be considered as "extra heavy," to wit:

Two inch .....	5 $\frac{1}{2}$ pounds
Three inch....	9 $\frac{1}{2}$ pounds
Four inch.....	13 pounds
Five inch.....	17 pounds
Six inch.....	20 pounds

All joints in cast iron drain, soil, waste and vent pipes shall be run with hot lead resting upon a gasket of oakum and calked gas tight. The amount of lead required is about twelve ounces to each inch of diameter of pipe.

SECTION 20. The test mentioned in Section 9 shall be applied by the plumber closing all openings in soil, drain, waste and vent pipes, and filling the system with water to its top, in the presence of the Board or its duly accredited Inspector, and after all connections are made and the water admitted to fill the traps, either the "Peppermint," "Ether" or "Smoke" test shall be applied by the Board or its Inspector. If any leaky pipe is found it must be replaced by new, and any leaky joints must be made tight.

SECTION 21. All connections of lead with iron pipes must be made with a brass sleeve or ferrule of the same size as the lead pipe, and securely fastened to it by a wiped or overcast joint, and to the iron by a lead-calked joint. All connections of lead waste pipes and vent pipes shall be made by means of wiped joints.

SECTION 22. The waste pipe from refrigerators shall in no case be directly connected with any soil pipe or waste pipe, drain or sewer, nor shall rain water leaders be used as soil, waste or vent pipes. No steam exhaust, blow off or drip pipe from a steam boiler shall connect with any drain, soil or waste pipe without the intervention of a condensation tank.

SECTION 23. No waste pipe from bowl or bathtub shall be connected with water-closet trap, nor shall any bathtub pipe be connected with a waste pipe from a washbowl or sink.

SECTION 24. Whenever a house sewer or drain is obstructed with tree roots or is found broken or defective, so that sewerage or drainage escapes therefrom into the surrounding soil or into adjacent premises, the Inspector of Plumbing shall condemn such sewer and order its repair or replacement.

If the defective sewer be of terra cotta, he may direct its replacement with cast iron within four feet outside of building.

Whenever a pipe, joint, plumbing fixture or appurtenance of a system of plumbing is broken, defective or inoperative, its repair or replacement may be ordered by the Inspector of Plumbing with the approval of the Board of Health.

Any order or notice issued under the provisions of this section shall be promptly complied with by the person responsible.

House sewers and house drains must, where possible, be given an even grade to the main sewer of not less than one-quarter of an inch per foot.

**SECTION 25.** If the public sewer be a pipe sewer having a diameter of twelve (12) inches or more, the plumber, under direction of the Commissioner, or any authorized employee of the city, shall cut a hole of the least practicable size in the public sewer, and the connection shall be made by means of a connecting thimble of the same size and material as the house sewer; of such length that the hub shoulder thereof shall rest against the outer surface of the sewer and no portion extend within it.

**SECTION 26.** No water-closet except those placed in yards shall be allowed without a flushing tank, flushometer, volumeter or similar device, which shall be supplied directly from the supply pipes.

All water-closets must have flushing rim-bowls.

**SECTION 27.** In no case will the water-closet system of tenement or lodging houses be permitted in cellars, basements or under sidewalks.

**SECTION 28.** Pan, plunger or hopper closets will not be permitted in any building. No range closet, either wet or dry, nor any evaporating system of closets, shall be constructed or allowed inside of any building.

A separate building, constructed especially for the purpose, must be provided in which such range closets shall be set.

**SECTION 29.** All extensions of existing plumbing shall be made in conformity to these regulations. All repairs and alterations of existing plumbing shall conform as nearly as practicable to these regulations.

**SECTION 30.** No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected with any drain, soil or other waste pipe. Such waste pipes

shall be so arranged as to admit of frequent flushing, and shall be as short as possible in direction to trap or open fixtures.

SECTION 31. Safe waste pipes shall not be connected directly to any part of the plumbing system or so maintained.

SECTION 32. No person shall locate, or cause to be located, any water-closet in any sleeping-room, or in any room, apartment, or vault which is not in direct communication with the external air or vertical air shaft by means of a window or air space having an area of at least four (4) square feet for the admission of light and fresh air.

SECTION 33. Means shall be provided for thoroughly flushing all soil-pipes, drain pipes, water-closets and urinals. A copper-lined flushing tank of adequate size, provided with a flush pipe not less than one and one-quarter (1 1-4) inches in diameter shall be supplied for every water-closet and such tank shall not be used for any other purpose.

Pan, valve, plunger or offset water-closet shall not be installed, nor shall such water-closet now in use be maintained if complaint is made by any occupant of the building in which it is located.

When a bowl, or trap, of either type of closet above mentioned, or of a straight or oval hopper closet, within a building is defective such portion may not be replaced, but an approved closet shall be substituted for the old fixture.

A straight or oval hopper closet shall not be installed within a building except upon the approval of the Inspector of Plumbing, in locations where the exposure to frost will not justify the use of a trap above the floor.

A straight hopper closet may be condemned by the Inspector of Plumbing upon complaint if located in a building which has been constructed twelve years or more, and shall then be replaced by a short hopper closet of approved type.

Whenever a water-closet of prohibited type is replaced the reconstruction of adjacent small fixtures, wastes and vents required to bring them into reasonable conformity to these regulations shall also be performed, and the soil stack also extended above the roof level.

SECTION 34. Latrines and trough water-closets are prohibited.

SECTION 35. No brick, sheet metal or earthenware flue, or chimney flue, shall be used as a sewer ventilator, or to ventilate any trap, drain, soil or waste pipe.

**SECTION 36.** All soil, drain, waste and vent pipes shall be located inside of buildings. Every soil and vent pipe shall be of iron, lead or brass, with screwed, leaded and calked or wiped joints, and shall be so located as to be accessible for inspection. Pipes of this kind shall be kept above ground, if practicable. When wrought iron vent pipes are used they shall be of galvanized iron provided with galvanized fittings. No cast iron vent pipes shall be of less diameter than three (3) inches.

The Inspector of Plumbing may, with the approval of the Secretary of the Board of Health, authorize the placing of small vent pipes outside of old buildings in cases where it is considered inadvisable to locate them within the building. Any vertical line of leader, soil or waste pipe over fifty feet in height must be of extra heavy cast iron pipe.

All vertical soil pipe must extend full size through roof. Vent soil pipes shall extend two feet above roof. When within four feet of any window or opening it shall then be placed one foot above either window or opening.

**SECTION 37.** At the base of all soil stacks or pipes there shall be placed a "plain tee fitting" to insert testing plug. After work is tested and tee removed, either a clean-out or a cast iron plug must be used to close opening.

**SECTION 38.** Every soil and waste pipe shall have a slope or incline of at least one (1) in forty-eight (48), and vent pipes, where not vertical, shall have a continuous slope.

In no such line shall be run unnecessary bends or offsets, and, where changes of direction are unavoidable, they shall be made with bends of not more than forty-five (45) degrees, if practicable.

No air inlet shall be laid without the best obtainable slope, and in a manner to avoid unnecessary length and bends.

#### SIZES OF SOIL AND WASTE.

The sizes of soil and waste pipes must not be less than those set forth in the following table:

Horizontal lines are to be increased as fixtures are added, but verticals throughout their entire length are to have the diameter given for the total number of fixtures which discharge through them.

<i>Horizontal Runs.</i>	<i>No. of Water-Closets.</i>
4 inches .....	1 to 6
5 inches .....	7 to 12
6 inches .....	13 to 20
<i>Vertical Runs.</i>	<i>No. of Water Closets.</i>
4 inches .....	1 to 12
5 inches .....	13 to 25
6 inches .....	26 to 40

Small fixtures in number not to exceed twice the number of water-closets may discharge into the lines above specified without increasing their size.

When the small fixtures exceed in number this ratio four other fixtures shall be connected equal to one water-closet.

SECTION 39. Deviations and variations from these rules will be allowed when desired only when in the opinion of the Board they will not be liable to become a source of danger to the public health.

SECTION 40. All fees received by the Board of Health or Inspector of Plumbing, for permits, licenses, etc., shall be paid into the treasury of the city.

### XXIII. HEALTH.

SECTION 1. No person shall throw or deposit or cause to be thrown or deposited in any street, gutter, lane, court, square, alley, walk or public place, any garbage, excrement, filth, dead bodies of animals or any liquid or solid substance which may occasion noxious exhalations or offensive smells, nor any sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oysters, clam or lobster shells, or any animal or vegetable substance whatever, nor shall any person throw or cast any dead animal or any foul, offensive or noxious matter into any dock or place covered by fresh water, nor into the salt water, except beyond mean low tide, nor there without securing thereto a weight sufficient to prevent it from floating.

SECTION 2. Whenever any drain or cesspool in the opinion of the Mayor or Board of Health shall become dangerous to the health or prejudicial to the comfort of the citizens on account of dirt or filth, the owner or occupant of the premises where such drain exists, being notified thereof by the Mayor or a member of the Board of Health or the Health Officer, shall within twenty-four hours remove said dirt and filth and shall forthwith repair such drain to the satisfaction of the Mayor, Board of Health or Health Officer.

**SECTION 3.** No person shall open or cause to be opened any privy or privy vault for the purpose of removing the contents thereof or shall cause such contents to be removed between the first day of June and the first day of October unless the same shall be done after the hours of nine o'clock in the evening and before the hour of six in the morning.

**SECTION 4.** No person shall cause any night-soil or the contents of any vault or privy to be carried or carted through any of the streets in this city unless in a tight covered vehicle and after the hour of ten in the evening and before the hour of six in the morning.

#### **XXIV. NUMBERING OF DWELLING HOUSES AND OTHER BUILDINGS.**

**SECTION 1.** There shall be inscribed on or affixed to all dwelling houses and other buildings erected or fronting on any street, lane, alley or public court within the City of South Portland, numbers of regular series to be designated by the Council or some person by them thereunto duly authorized, said numbers to be not less than one and seven-eighths inches in height and to be so placed as to be plainly visible from the street. Any owner or occupant of any building or part of a building who shall neglect or refuse to affix to the same the number so designated, or who shall affix to or retain thereon more than forty-eight hours any number contrary to the directions of the Council or person so authorized shall be liable to a penalty of not less than one dollar, nor more than five dollars, and a like sum for each subsequent offense.

#### **XXV. JUNK PEDDLERS.**

**SECTION 1.** No person shall go from house to house or from door to door in the City of South Portland purchasing or soliciting the sale of old rags, bottles, metal, paper or other articles commonly known and denominated as junk, without first obtaining license so to do from the municipal officers, as hereafter provided.

**SECTION 2.** All applications for license shall be in writing, signed by the applicant, stating his age, residence and nationality and containing the recommendation of at least one well-known citizen of Cumberland County, who must be personally acquainted with the applicant. Before issuing any such license the municipal officers may require any other

satisfactory evidence as to the character and fitness of the applicant.

SECTION 3. All licenses issued under the provisions of this ordinance shall run for the remainder of the municipal year in which they are issued unless sooner revoked.

SECTION 4. All licenses shall be numbered and while doing business thereunder each person licensed shall wear in plain sight a badge engraved with his license number, which shall also be painted or otherwise plainly displayed upon his cart or other vehicle used by him in said city while engaged in purchasing junk.

SECTION 5. Any person permitting his badge or carts to be used by another for the purpose of evading the provisions of this act shall forfeit his license and be liable to a penalty of not exceeding twenty dollars.

SECTION 6. Before any license herein provided shall be issued, the applicant shall pay to the City Clerk the sum of one dollar and fifty cents, for issuing and recording same, who shall thereupon furnish such applicant with a badge, and a number for his vehicle as aforesaid. The City Clerk shall have power to issue such licenses subject to the approval of the municipal officers.

SECTION 7. Any person violating the provisions of this act shall be subject to a penalty of not exceeding twenty dollars.

## XXVI. POOL-ROOMS, BOWLING ALLEYS, ETC.

SECTION 1. No pool-room, billiard hall, bowling alley, shooting gallery, or other place of amusement, conducted for the purpose of deriving revenue from the playing of games of skill, shall be kept open or have any games played therein after eleven o'clock on any night, and under no circumstances shall any minors under the age of fifteen years be permitted to take any part in any game therein, in the City of South Portland.

SECTION 2. Any person violating the above ordinance shall be liable to a penalty of not exceeding twenty dollars.

## XXVII. TAMPERING WITH FIRE ALARMS.

SECTION 1. No person except the City Electrician and his assistants shall tamper with the city fire alarm, bells, signal or fire department system or cut any wire or break or interfere with any circuit thereof under a penalty of not

exceeding twenty (20) dollars for each offense. Any member of the City Fire Department who removes a tapper from an electric tapper circuit shall in addition to the foregoing penalty be discharged from the Fire Department and shall not be reinstated or reappointed thereto in any capacity.

SECTION 2. No person shall knowingly send a false alarm of fire within the city limits and any person who violates this ordinance shall be liable to a penalty not exceeding ten dollars or thirty days in jail.

### XXVIII. BLASTING.

SECTION 1. No person shall blast any rock or other substance with gunpowder or any other explosive at any place within fifty rods of any street or public place in the city without license of the Mayor and Aldermen in writing, specifying the terms and conditions on which said license is granted under a penalty of not exceeding twenty dollars for each offense; *provided, however,* that the remedy of any person injured by the blasting of rocks shall not be affected by this section.

### XXIX. DOGS.

SECTION 1. On complaint being made in writing to the Judge of the Municipal Court of South Portland, that any dog owned or kept within the city limits has, by barking, biting, howling or in any other way or manner disturbed the quiet of any person, or upon such complaint that any such dog has done damage to any person or their property within the city, the Judge shall thereupon order the owner or keeper of such dog to appear before him and answer to said complaint, by serving such owner or keeper with a copy of said complaint and order, a reasonable time before the day set for the hearing thereof. If, upon hearing, the Judge shall be satisfied that the complaint is true, he shall order such owner or keeper, within twenty-four hours thereafter, either to kill or confine said dog, or remove and keep said dog beyond the city limits. And in case said owner or keeper shall neglect to comply with said order, he shall forfeit to the use of the city a sum not exceeding twenty dollars, to be recovered in the name of the city by an action on the case.

### XXX. RESISTING POLICE OFFICERS AND CONSTABLES IN THE DISCHARGE OF THEIR DUTIES.

SECTION 1. Any person who shall resist a police officer or constable of the city in the discharge of his duties shall be liable to a fine of not less than five nor more than twenty dollars; and any person who shall neglect or refuse to aid and assist a police officer or constable when called upon to do so shall forfeit and pay not more than twenty dollars.

### XXXI. OFFENSES AGAINST PEACE AND GOOD ORDER.

SECTION 1. No person shall ride a bicycle, drive, wheel or draw any other vehicle, except children's carriages drawn by hand, or drive any horse or other animal upon any sidewalk, except across the same, under a penalty of not exceeding ten dollars to be recovered by complaint. All portions of streets constructed in such manner as to be adapted to the use of pedestrians and not to the use of horses or carriages are to be considered sidewalks within the above provision.

SECTION 2. No person shall willfully or negligently obstruct the free passage of foot travelers nor shall any person saunter or loiter for more than five minutes upon the sidewalk after being directed by a police officer to move on, under a penalty of not exceeding ten dollars. Three or more persons shall not stand in a group or near to each other on any sidewalk or crosswalk or in any street or public way in such a manner as to obstruct free passage thereon or therein after a request from any person to make way, under a penalty of not exceeding ten dollars; and if three or more persons standing in a group or near to each other on any sidewalk or crosswalk or in any street or public way in this city so as to obstruct the walk, street or way in any manner, shall refuse or neglect to pass on immediately on being directed so to do by the Mayor, any Alderman, City Marshall or Deputy or any policeman, constable or watchman, they shall each and severally be liable to a fine not exceeding ten dollars.

SECTION 3. No person shall stand, sit or loiter about or upon the walks, entrance, steps or grounds of any of the schoolhouses, city offices, churches, stores, postal stations

or any other public buildings within the city after being directed to move therefrom by the Mayor, any Alderman, policeman, constable, watchman, owner or occupant of the premises, under a penalty of not exceeding ten dollars for each offense.

SECTION 4. No owner or person having charge of any horse, cow, ox, swine, goat or other grazing animal shall turn or permit the same to go at large in any street, highway or public place within the city under a penalty of not exceeding five dollars.

SECTION 5. No person shall swim or bathe in a nude state in the waters of the city which are adjacent to any of the wharves, bridges, highways, streets, railroads, avenues, cemeteries or places of public resort in said city under a penalty of not exceeding twenty dollars.

SECTION 6. No person shall kindle any fire in any field, pasture or enclosure not his own without the consent of the owner, nor shall any person discharge any gun, pistol or firearms in any street, highway or public place within the city.

SECTION 7. No person shall in any street or public place make any loud or unusual noises, by shouting, sounding horns, drums, or any instrument or thing, nor sing, nor utter any obscene or indecent songs or words, nor shall in any other unruly or boisterous manner disturb the peace, quiet and good order of the city.

SECTION 8. No person shall disturb any public meeting, singing school, entertainment or evening meeting of any kind by making loud or unusual noises, by shouting, stamping, or whistling, or by standing about and obstructing the steps, passage-ways or entrance of any building where such meetings are held.

SECTION 9. No person shall ride any bicycle, or ride or drive any animal or animals loose or attached to a carriage of any description or ride or drive any vehicle through any street in the city at an unusual, immoderate and dangerous rate of speed.

SECTION 10. No person shall hitch or leave standing any horse across any sidewalk in the city.

SECTION 11. No person shall course, slide down, across, in or along any of the sidewalks or streets upon any hand-sled, board-jumper or otherwise, except in such streets or ways as shall be designated by the municipal officers.

SECTION 12. No person shall play at any game of ball or football or throw balls or stones, brickbats, clubs or snowballs within any of the streets in this city.

SECTION 13. No persons shall congregate on the Lord's day for the purpose of playing at any game or indulging in any sport, exercise or recreation, nor shall they play at any such game or sport or indulge in any such exercise or recreation in such a manner as to make themselves obnoxious to or disturb the peace and quiet of any of the citizens of this city.

SECTION 14. No person shall make any indecent figures nor write any indecent or obscene words upon any fence, sidewalk, building or other public place within the city, nor deface any building, fence or other property not his own in the city, by cutting, breaking, daubing with paint, or in any manner deface or injure the same.

SECTION 15. No person shall make any alteration in any sidewalk or set any posts or any trees on any of the sidewalks or in any part of the street without the consent of the Mayor and Aldermen, or some person by them authorized.

SECTION 16. No person shall willfully cut, scar or bruise, or cause or permit to be cut, scarred or bruised by hitching horses thereto or otherwise any ornamental or fruit trees on any of the streets, lanes or public ways in the city.

SECTION 17. No person shall, except for road purposes, remove any gravel, soil or material from any portion of the public highway, roads or streets or from any gravel-pit or sand-pit belonging to the city, without the consent of the Commissioner of Public Works expressly given therefor.

SECTION 18. No child under sixteen years of age shall be or remain upon any street, alley or lane, or in any public place, restaurant or place of resort or amusement in this city in the night-time after nine o'clock in the afternoon from May first to October thirty-first, both inclusive, nor after the hour of eight o'clock in the afternoon from November first to April thirtieth, both inclusive, of each year, unless accompanied by a parent, guardian or other person having the legal custody of such minor or the lawful employment of such minor makes it necessary to be upon such street, alley or lane or in such public place, restaurant or place of resort or amusement after said hours.

### XXXII. FINES AND PENALTIES.

SECTION 1. When no punishment is provided by ordinance or a punishment is provided which is not within the jurisdiction of the Municipal Court of South Portland to impose, a person convicted of an offense under any such ordinance shall be fined not more than ten dollars for each offense.

SECTION 2. All fines, forfeitures and penalties for violation of any ordinance shall be to the use of the city and may be recovered therefor by action of debt or on complaint before the Municipal Court of said city.

SECTION 3. It shall be the special duty of the constables and police officers of the city to prevent any transgression of the city ordinances and it shall also be their duty to prosecute on behalf of the city all persons known by them to have violated the provisions of any city ordinance.

### XXXIII. EXECUTION OF DEEDS IN BEHALF OF THE CITY.

SECTION 1. The Mayor is hereby authorized and empowered to affix the seal of the city unto and to execute and deliver in behalf of the same all deeds, contracts, agreements and other legal instruments required by any order or vote of the City Council whose execution and delivery is not otherwise provided for by law.

### XXXIV.

SECTION 1. No person shall throw or deposit, or cause to be thrown or deposited in any street, court, square, lane, alley or public place any sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam or lobster shells, waste or dirty water, or any animal, vegetable or offensive matter whatever, nor shall any person or persons throw or cast any dead animal or any offensive matter in any dock or place between the channel and the shore, nor shall land any foul or offensive animal or vegetable substance within the city, nor shall cast any dead animal in the water of the harbor or cove. No person conveying through the city offal or refuse matter or garbage or any substance having offensive odors shall leave the wagon or conveyance on which such substances are being transported so that they will remain in any part of the highway or its vicinity in South

Portland for a longer period than one-half hour, and no person shall allow the wagon or contents of the wagon containing such substances to remain over night in or near any of the highways in South Portland, and if requested by any municipal officer or police officer shall remove the same outside of the city limits without delay.

SECTION 2. Any person violating this ordinance shall be liable to a fine not exceeding ten dollars (\$10.00) for each offense and to an additional fine of one dollar (\$1.00) for each hour or portion thereof during which the same is allowed to remain in violation of the ordinance after request for such removal by proper officer.

#### XXXV.

SECTION 1. That the ordinance relating to salaries be amended by inserting after the words "City Auditor, \$250.00 per annum" the words "Commissioner of Public Works, \$1,200.00 per annum."

#### XXXVI.

SECTION 1. That the City Council of the City of South Portland at this meeting legally called thereof, do accept sections 5, 6, 7, 8, 9, 10 and 11 of chapter 21 of the Revised Statues of Maine relating to drains and common sewers and make the provisions of said sections apply to said City of South Portland.

#### XXXVII.

SECTION 1. That the present location of the monuments, boundary stones, curb stones, stepping stones or horse blocks, posts and other things placed within the limits of the city roads, ways and streets, for legitimate municipal purposes, are hereby approved.

SECTION 2. That the Commissioner of Public Works is authorized and empowered to place markers near the crossings on highways and on sidewalks for the purpose of indicating the lines of the same and distinguishing them. And he is further authorized to place monuments, boundary stones, curb stones, stepping stones or horse blocks, trees, lamp posts, posts and hydrants and all other things within the limits of the roads, ways and streets for legitimate municipal purposes.
